
Accounting for small and medium-sized enterprises (SMEs)

Entrepreneurial soul,
That desires transformation,
A micro view,
To understand the macro.
In which sector will you operate?
Did you see that large companies are hiring?
That path doesn't appeal to me,
The micro struggles to become macro.
Is there room for this discussion? I feel like a fish out of water.
We live in circumstances,
Of the small and medium entrepreneur,
Yet we undervalue their struggle,
Their battles and achievements.
To undertake is risk,
Restlessness and impermanence,
I am like this,
the standard frightens me,
I lead the change.
I call upon the restless,
Let us fight for more entrepreneurs,
For more entrepreneurial education,
Individual dignity,
We can be like this.
