**C.01 THE FUTURE OF URBAN LIVING** A cognitive city stretching across 170 kilometers, from the epic mountains of NEOM across inspirational desert valleys to the beautiful Red Sea. A mirrored architectural masterpiece towering 500 meters above sea level, but a land-saving 200 meters wide. THE LINE redefines the concept of urban development and what cities of the future will look like. No roads, cars or emissions, it will run on 100% renewable energy and 95% of land will be preserved for nature. People's health and wellbeing will be prioritized over transportation and infrastructure, unlike traditional cities. THE LINE will eventually accommodate 9 million people and will be built on a footprint of just 34 square kilometers. This will mean a reduced infrastructure footprint, creating never-before-seen efficiencies in city functions. The ideal climate all-year-round will ensure that residents can enjoy the surrounding nature. Residents will also have access to all daily essentials within a five-minute walk, in addition to high-speed rail – with an end-to-end transit of 20 minutes.

**C.02 WORLD-CLASS QUALITY OF LIFE** Where the best and the brightest live. A place of unparalleled social and economic experimentation – without pollution and traffic – coupled with world-class preventative healthcare, so people will live longer.

**C.03 A PLACE TO PROTOTYPE BUSINESSES** Built around humans, not technology. A cognitive city that predicts and reacts to what we need, not the other way round. Zero-gravity living will mean a higher-density footprint creates a richer human experience, and new business opportunities – plus large-scale job creation.

**C.04 ENVIRONMENTAL SOLUTION TO URBANISM 2** Our zero-car environment is part of a 100% sustainable transport system – with zero pollution and zero wait time. Reduced commutes will create more time for leisure. Not paying for expenses like car insurance, fuel and parking will mean higher disposable incomes for citizens.

**C.05 A COMMUNITY INVENTING THE FUTURE** Advanced tech planning logistics and modular construction will enable efficient delivery of THE LINE. And the community will live close to, and in harmony with, nature – with 95% of land being protected for nature. Our vertical garden city will mean you are always only two mins from nature.

**C.06 THIS IS THE LINE - DESIGNED TO DELIVER NEW WONDERS**

**C.07 ENHANCE HUMAN LIVABILITY- VERTICAL URBANISM**

**C.08 MIRRORED SOLUTION BLENDING WITH NATURE – A MODEL FOR NATURE RESERVATION**

**C.09 IDEAL CLIMATE ALL-YEAR-ROUND REDUCED INFRASTRUCTURE FOOTPRINT**

**C.10 EVERYTHING YOU NEED WITHIN 5 MINUTES ALTERNATIVE WAYS FOR HUMANITY TO LIVE**

C.11 ADVANCED CONSTRUCTION & MANUFACTURING? UNMATCHED BUSINESS OPPORTUNITIES

C.12 A 20-MINUTE JOURNEY END-TO-END- HIGH-SPEED LINEAR MOBILITY

C.13 SOLUTIONS TO ENVIRONMENTAL CRISES – 95% OF LAND & SEA PROTECTED FOR NATURE

C.14 Work-life balance

C.15 Legacy-free urbanism

C.16 Enhanced livability

C.17 Leisure and sports
