

# Retraction notice: Impact of climate change on agricultural productivity: a combination of spatial Durbin model and entropy approaches

International  
Journal of Climate  
Change Strategies  
and Management

1273

---

The publishers of the *International Journal of Climate Change Strategies and Management* wish to retract the article by Dongbei Bai, Lei Ye, ZhengYuan Yang, and Gang Wang (2022), “Impact of climate change on agricultural productivity: a combination of spatial Durbin model and entropy approaches”, published in the *International Journal of Climate Change Strategies and Management* as part of a special issue, Vol. ahead-of-print, No. ahead-of-print, <https://doi.org/10.1108/IJCCSM-02-2022-0016>

It has come to our attention that the peer review process has been compromised; there are also concerns relating to the authorship of the paper, as well as to the identity of the author ‘Gang Wang’; as a result, the findings cannot be relied upon. These concerns have not been addressed by the authors. The publisher of the journal sincerely apologises to the readers.

The retracted article is available at: <https://doi.org/10.1108/IJCCSM-02-2022-0016>
