

Erratum: Does renewable energy consumption matter to reduce carbon emissions in low-and high-income countries? Evidence from the ARDL approach

It has come to the attention of the publisher that the article: Hechmi S. and Abid I. (2026), “Does renewable energy consumption matter to reduce carbon emissions in low-and high-income countries? Evidence from the ARDL approach”. *International Journal of Energy Sector Management*, Vol. 20 No. 4 pp. 1235–1254, doi: <https://doi.org/10.1108/IJESM-12-2024-0024>, failed to remove incorrect funding information on the online version. “Deanship of Scientific Research at Imam Mohammad Ibn Saud Islamic University” and “Award ID: IMSIU-DDRSP2602” has now been removed. The authors’ institution revised their funding policy before publication, as a result, this article did not receive institutional funding/support under the above program.

This error was introduced during the publication process, for which the publisher apologises.
