Bogiatzidis C and Zoumpoulakis L (2021) Novolac thermo-insulating composites embedding construction and demolition waste fillers. *Emerging Materials Research* **10(1)**: 110–114, <https://doi.org/10.1680/jemmr.20.00054>.

The last line of Table 3 was incorrectly omitted from the final version of the article. The correct version of Table 3 is presented below.

Table 3. Thermal conductivity coefficients λ of PR composites

Composite	C&DW: % w/w	Resin: % w/w	Thermal conductivity coefficient, λ : (W/m)/K
N-100	0	100	0.72 ²⁸
N-CDW30-500 μ m	30	70	0.42
N-CDW30-300 μ m	30	70	0.36
