

Announcement: Award-winning papers in 2007

Papers published in *Energy* are eligible for awards from the Institution of Civil Engineers. Papers from any ICE journal can be nominated for several awards. In addition, each journal has awards dedicated to its specific subject area.

On 24 October 2008, ICE President David Orr will present an award to the following paper published in *Energy* in 2007. The Editorial Advisory Panel nominated their best papers and an awards committee chaired by Adrian Long allocated the awards.

The David Hislop award, presented for the best paper on offshore engineering, was awarded to: Carter M. North Hoyle offshore wind farm: design and build. *Proceedings of the Institution of Civil Engineers, Energy*, 2007, 160, No. 1, 21–29. [doi: 10.1680/ener.2007.160.1.21]

The Overseas prize (1), presented for the best paper on an overseas project, was awarded to: Raghavan N., Kosuri S. R. K. V.,

Bhaskar K. V., de Laguerie P., Roux P., Vaskou P. and Saint A. Visakhapatnam underground LPG storage cavern, India. *Proceedings of the Institution of Civil Engineers, Energy*, 2007, 160, No. 2, 79–86. [doi: 10.1680/ener.2007.160.2.79]

The Telford Premium (2), presented for a notable contribution to civil engineering literature, was awarded to: Gross R., Heptonstall P., Leach M., Anderson D., Green T. and Skea J. Renewables and the grid: understanding intermittency. *Proceedings of the Institution of Civil Engineers, Energy*, 2007, 160, No. 1, 31–41. [doi: 10.1680/ener.2007.161.1.31]

The James Watt Medal, presented for the best paper on energy, was awarded to: King D. Innovate Green office: a new standard for sustainable buildings. *Proceedings of the Institution of Civil Engineers, Energy*, 2007, 160, No. 3, 105–111. [doi: 10.1680/ener.2007.160.3.105]
