

Journal of Environmental Engineering and Science

Contents
Volume 5, 2006

Revue du génie et de la science de l'environnement

Sommaire
Volume 5, 2006

January / Janvier

ARTICLES/ ARTICLES

- Claire McAuley and Steve E. Hrudey** Towards meaningful stakeholder comprehension of sour gas facility risk assessments **1**
- Katharine M. Cross, Kevin W. Biggar, Kathy Semple, Julia Foght, Selma E. Guigard, and James E. Armstrong** Intrinsic bioremediation of diesel-contaminated cold groundwater in bedrock **13**
- M.R. Templeton, R. Hofmann, R.C. Andrews, and G.E. Whitby** Biosimetry testing of a simplified computational model for the UV disinfection of wastewater **29**
- Rafik M. Hesnawi and Daryl M. McCartney** Impact of compost amendments and operating temperature on diesel fuel bioremediation **37**
- Beatriz C. Polo, Jatinder K. Bewtra, and Nihar Biswas** Effect of hydraulic retention time and attachment media on sulfide production by sulfate reducing bacteria **47**
- Paula Dawe** A statistical evaluation of water quality trends in selected water bodies of Newfoundland and Labrador **59**

NOTE / NOTE

- Andrew Wagner, Melissa Hoffman, Christopher F. Green, Edward Barth, Craig Davidson, Shawn G. Gibbs, and Pasquale V. Scarpino** Inactivation of *Stachybotrys chartarum* grown on gypsum board using aerosolized chemical agents **75**

March / Mars

REVIEW / SYNTHÈSE

- Keisuke Ikehata and Mohamed Gamal El-Din** Aqueous pesticide degradation by hydrogen peroxide/ultraviolet irradiation and Fenton-type advanced oxidation processes: a review **81**

ARTICLES/ ARTICLES

- F. Alkoaik and A.E. Ghaly** Determination of heat generated by metabolic activities during composting of greenhouse tomato plant residues **137**
- Mahad S. Baawain, Mohamed Gamal El-Din, and Daniel W. Smith** Computational fluid dynamics application in modeling and improving the performance of a storage reservoir used as a contact chamber for microorganism inactivation **151**
- Mari Shin, Suzelle F. Barrington, William D. Marshall, and Jin-Woo Kim** Kinetics of metal desorption from soil with nonionic micelle-solubilized ligands **163**

May / Mai

Special Issue on Biosolids / Numéro spécial consacré aux biosolides

EDITORIAL / ÉDITORIAL

- Harlan G. Kelly, Jan A. Oleszkiewicz, and Bartek M. Puchajda** This special issue of the *Journal of Environmental Engineering and Science* is devoted to biosolids **v**
- Harlan G. Kelly, Jan A. Oleszkiewicz, et Bartek M. Puchajda** Numéro spécial de la *Revue du génie et de la science de l'environnement* consacré aux biosolides **vi**

ARTICLES/ ARTICLES

Harlan G. Kelly Emerging processes in biosolids treatment, 2005	175
Bartek Puchajda and Jan Oleszkiewicz Thermophilic anaerobic acid digestion of biosolids: hydrolysis, acidification, and optimization of retention time of acid digestion	187
Ali Esmaeily, Maria Elektorowicz, Shiva Habibi, and Jan Oleszkiewicz Dewatering and coliform inactivation in biosolids using electrokinetic phenomena	197
Raynald Chassé, Sandrine Delbaen, and Marc Hébert Development of quality criteria based on a toxicological characterization of fertilizing residuals	203
Angela Lorenzen, Kent Burnison, Mark Servos, and Edward Topp Persistence of endocrine-disrupting chemicals in agricultural soils	211
Bo Ge, Daryl McCartney, and Jehan Zeb Compost environmental protection standards in Canada	221
Ash Raichura and Daryl McCartney Composting of municipal biosolids: effect of bulking agent particle size on operating performance	235
Adrian Unc and Michael J. Goss Impact of organic waste amendments on soil hydraulic properties and on water partitioning	243
Chantal J. Beauchamp, Claude Camiré, and François-P. Chalifour Use of bark and combined paper sludge for the revegetation of bark-covered land	253
B. Shanchayan, W. Parker, and C. Pride Dynamic analysis of a biofilter treating autothermal thermophilic aerobic digestion offgas	263

July / Juillet

ARTICLES / ARTICLES

Dean M. Shiskowski and Donald S. Mavinic The influence of nitrite and pH (nitrous acid) on aerobic-phase, autotrophic N ₂ O generation in a wastewater treatment bioreactor	273
Le Zeng and Xiaomei Li Nutrient removal from anaerobically digested cattle manure by struvite precipitation	285
S. Weng, G. Putz, and J.A. Kells Phosphorus uptake by cattail plants in a laboratory-scale experiment related to constructed treatment wetlands	295
P.T. Tri, C. Visvanathan, and V. Jegatheesan Biological treatment of oily wastewater from gas stations by membrane bioreactor	309
Fatiha Zidane, Bouchra Berrada, Brahim Lekhlif, Mustapha Lounès et Jean-François Blais Performances d'un biofiltre à garnissage plastique pour le traitement d'effluents fortement contaminés en phénol, cadmium et chrome	317
M.Y. Menetrez, K.K. Foarde, T.D. Webber, T.R. Dean, and D.A. Betancourt Efficacy of UV irradiation on eight species of <i>Bacillus</i>	329
Fatima Hammy, Myriam Chartier, Guy Mercier et Jean-François Blais Décontamination des résidus de contrôle de la pollution de l'air (RCPA) d'incinérateurs de déchets municipaux par lixiviation en milieu basique et adsorption sur tourbe	335
Z. Hu and G.A. Gagnon Factors affecting recirculating biofilters (RBFs) for treating municipal wastewater	349

NOTE / NOTE

Anna M. Comerton, Robert C. Andrews, and David M. Bagley Impact of blending reuse and lake water on treated water quality	359
--	-----

September / Septembre

ARTICLES / ARTICLES

R.A. Simm, D.S. Mavinic, and W.D. Ramey A targeted study on possible free ammonia inhibition of <i>Nitrospira</i>	365
Young-Ju Kim and Tahir Imran Qureshi Recycling of calcium fluoride sludge as additive in the solidification-stabilization of fly ash	377
Talat Mahmood and Michael Paice Aerated stabilization basin design and operating practices in the Canadian pulp and paper industry	383
A.G. El Samrani, N. Ouaini, B.S. Lartiges, V. Kazpard, A. Ibrik, and Z. Saad Behavior of complexing ligands during coagulation-flocculation by ferric chloride: A comparative study between sewage water and an engineered colloidal model	397
Halla R. Sahely, Heather L. MacLean, Hugh D. Monteith, and David M. Bagley Comparison of on-site and upstream greenhouse gas emissions from Canadian municipal wastewater treatment facilities	405

- E. Ruiz, I.R. Fleming, and G.J. Putz** Passive treatment of municipal landfill leachate in a granular drainage layer **417**
- Dalibor Kuchar, Vratislav Bednarik, Milan Vondruska, Yoshihiro Kojima, Maurice S. Onyango, and Hitoki Matsuda** Long-term prevention of organics dissolution from wastewater sludge treated with coal fly ash **429**

NOTE / NOTE

- Y. Gilbert, Y. Le Bihan, and P. Lessard** Acetylene blockage technique as a tool to determine denitrification potential of a biomass fixed on an organic media treating wastewater **437**
- N. Beithou** Proposed water management and control device for water losses problem in Jordan **443**

November / Novembre

ARTICLES / ARTICLES

- T.J. Strang and D.G. Wareham** Phosphorus removal in a waste-stabilization pond containing limestone rock filters **447**
- W.T. Wong, W.I. Chan, P.H. Liao, K.V. Lo, and D.S. Mavinic** Exploring the role of hydrogen peroxide in the microwave advanced oxidation process: solubilization of ammonia and phosphates **459**
- Chi-Wang Li, Mark M. Benjamin, and Gregory V. Korshin** Characterization of NOM and its adsorption by iron oxide coated sand (IOCS) using UV and fluorescence spectroscopy **467**
- A. Shanableh and S. Jomaa** Hydrothermal treatment and recycling of organic by-products from sludge – confirmation of by-products availability for biological nutrient removal **473**
- Aaron A. Jennings and Elijah J. Petersen** Variability of North American regulatory guidance for heavy metal contamination of residential soil **485**
- Farid R. Zaggout, Mohamed M. Al-Subu, and Tysser El-Ghoti** Removal of cadmium (II) ions from aqueous solution by *Tamrix gallica* leaves **509**
- Angelune Des Lauriers, James Li, Kevin Sze, Stacey L. Baker, Greg Gris, and Jack Chan** A field study of the use of methoprene for West Nile virus mosquito control **517**
- M.R. Templeton, R. Hofmann, and R.C. Andrews** Case study comparisons of computational fluid dynamics (CFD) modeling versus tracer testing for determining clearwell residence times in drinking water treatment **529**

NOTE / NOTE

- M.R. Templeton, R. Hofmann, and R.C. Andrews** UV inactivation of humic-coated bacteriophages MS2 and T4 in water **537**

Author Index for Volume 5 / Index des auteurs pour le volume 5 **AI-1**

Contents for Volume 5 / Sommaire pour le volume 5 **C-1**

Supplement / Supplément**Cold Regions Environmental Engineering / Génie de l'environnement des régions froides**

ARTICLES / ARTICLES

- D.W. Smith, R.K. Guest, C.P. Svrcek, and K. Farahbakhsh** Public health evaluation of drinking water systems for First Nations reserves in Alberta, Canada **S1**
- Corianne Hart and Daniel White** Water quality and construction materials in rainwater catchments across Alaska **S19**
- E.E. Prepas, J.M. Burke, I.R. Whitson, G. Putz, and D.W. Smith** Associations between watershed characteristics, runoff, and stream water quality: hypothesis development for watershed disturbance experiments and modelling in the Forest Watershed and Riparian Disturbance (FORWARD) project **S27**
- Mohamed H. Nour, Daniel W. Smith, Mohamed Gamal El-Din, and Ellie E. Prepas** Artificial neural networks and time series modelling of TP concentration in boreal streams: a comparative approach **S39**
- Clark Svrcek, Rodney K. Guest, and Daniel W. Smith** Residence time distribution analysis of an intermittently operating truck fill facility to determine effective contact time **S53**
- Khosrow Farahbakhsh and Daniel W. Smith** Membrane filtration for cold regions — impact of cold water on membrane integrity monitoring tests **S69**
- Sarah Seelen, Daniel White, Kenji Yoshikawa, and Vincent Autier** Pyrolysis-GC/MS analysis of leachates for differentiating the parent matter of DOM **S77**
- Michael R. Walsh, Jon E. Zufelt, and Charles M. Collins** Remediation of white phosphorus contamination in an Alaskan wetland **S87**

Mohamed Gamal El-Din, Daniel W. Smith, Fares Al Momani, and Keisuke Ikehata Ozone treatment for the degradation of resin and unsaturated fatty acids at low temperatures	S95
Xiaojian Mao, Ian D. Buchanan, and Stephen J. Stanley Phenol removal from aqueous solution by fungal peroxidases	S103
C.-J. Jeng, W.B. Kindzierski, and D.W. Smith Particle penetration through rectangular-shaped cracks	S111
W.B. Kindzierski and H.K.S. Ranganathan Indoor and outdoor SO ₂ in a community near oil sand extraction and production facilities in northern Alberta	S121
