

# Environmental Geotechnics: Reviewers 2025

The following is a list of reviewers who have reviewed papers for *Environmental Geotechnics* between 01 January 2025 to 31 December 2025. Emerald Publishing Limited is very grateful for their assistance.

We are continually looking for suitable reviewers for papers submitted to *Environmental Geotechnics*. Papers published in the ICE journals must be submitted to at least two independent reviewers to judge accuracy, style, impact, importance and interest.

If you are interested in reviewing articles on any topic related to the basic concepts, theory, techniques and field applicability of innovative testing and

analysis methodologies and engineering practices in geoenvironmental engineering, please submit your name, qualifications or CV, and areas of expertise. We are in need of individuals who will agree to review papers in a timely fashion (within 3–4 weeks of receipt) and provide confidential feedback to the Editorial Advisory Panel concerning the quality of the paper and any suggested revisions that would be appropriate.

If you are such a person, please contact Rebecca Rivers (e-mail: [rrivers@emerald.com](mailto:rrivers@emerald.com)) for more information on the referee process.
