

## Elsewhere in *ICE Proceedings*

All papers published in *Engineering History and Heritage* and the other 17 parts of the *Proceedings of the Institution of Civil Engineers* are available online from the ICE Virtual Library at [www.icevirtuallibrary.com/content/journals](http://www.icevirtuallibrary.com/content/journals). The two most read papers from each journal are listed here.

ICE Virtual Library is the largest online civil engineering resource in the world, containing ICE Publishing's entire published output since 1836. Summaries of all ICE Publishing journal papers, including non-*Proceedings* titles, plus full versions of last year's award-winning papers are free to download.

Subscribers to *Engineering History and Heritage* also have free online access to full papers published in the journal and recent back issues. All other ICE Publishing journal papers can be downloaded for £20 each.

ICE members can download any *Proceedings* paper for £5 each, or up to 15 of this year's *Proceedings* papers for a single 'virtual journal' subscription of £50. Members also benefit from a free subscription to *Civil Engineering*.

If you are interested in subscribing to other *ICE Proceedings* volumes then please contact [subscriptions@icepublishing.com](mailto:subscriptions@icepublishing.com)

### Bridge Engineering

Roberts GW, Brown CJ, Meng X *et al.* (2012) Deflection and frequency monitoring of the Forth Road Bridge, Scotland, by GPS. *Proceedings of the Institution of Civil Engineers – Bridge Engineering* **165(2)**: 105–123, <http://dx.doi.org/10.1680/bren.9.00022>.

Hussain N, Falbe-Hansen K, Gimsing NJ and Wong CKP (2012) Stonecutters Bridge, Hong Kong: design competition. *Proceedings of the Institution of Civil Engineers – Bridge Engineering* **165(1)**: 3–17, <http://dx.doi.org/10.1680/bren.2012.165.1.3>.

### Civil Engineering

Crockford I, Breton M, McCormick F and Johnson P (2011) Delivering London 2012: the Olympic Stadium. *Proceedings of the Institution of Civil Engineers – Civil Engineering* **164(6)**: 37–43, <http://dx.doi.org/10.1680/cien.2011.164.6.37>.

Hone D, Higgins D, Galloway I and Kintrea K (2011) Delivering London 2012: organisation and programme. *Proceedings of the Institution of Civil Engineers – Civil Engineering* **164(5)**: 5–12, <http://dx.doi.org/10.1680/cien.2011.164.5.5>.

### Construction Materials

Bertolini L, Lollini F and Redaelli E (2011) Durability design of reinforced concrete structures. *Proceedings of the Institution of Civil Engineers – Construction Materials* **164(6)**: 273–282, <http://dx.doi.org/10.1680/coma.1000040>.

Joseph C, Gardner D, Jefferson T, Isaacs B and Lark B (2011) Self-healing cementitious materials: a review of recent work. *Proceedings of the Institution of Civil Engineers – Construction Materials* **164(1)**: 29–41, <http://dx.doi.org/10.1680/coma.900051>.

### Energy

Carrick J and Roddy D (2011) Biomass energy for a mixed urban/rural region. *Proceedings of the Institution of Civil Engineers – Energy* **164(3)**: 111–126, <http://dx.doi.org/10.1680/ener.2011.164.3.111>.

Holden K and Twinn C (2011) Achieving zero carbon code level 6 for the Kingspan Lighthouse building. *Proceedings of the Institution of Civil Engineers – Energy* **164(1)**: 5–15, <http://dx.doi.org/10.1680/ener.900015>.

### Engineering and Computational Mechanics

Phillips ATM (2012) Structural optimisation: biomechanics of the femur. *Proceedings of the Institution of Civil Engineers – Engineering and Computational Mechanics* **165(2)**: 147–154, <http://dx.doi.org/10.1680/eacm.10.00032>.

Lewis WJ (2008) Computational form-finding methods for fabric structures. *Proceedings of the Institution of Civil Engineers – Engineering and Computational Mechanics* **161(3)**: 143–149, <http://dx.doi.org/10.1680/eacm.2008.161.3.139>.

### Engineering History and Heritage

Barton BMJ (2011) John Rennie and the drainage of the Witham Fens, Lincolnshire, UK. *Proceedings of the Institution of Civil Engineers – Engineering History and Heritage* **164(3)**: 175–187, <http://dx.doi.org/10.1680/ehah.2011.164.3.175>.

Joiner JH (2011) The story of the Bailey bridge. *Proceedings of the Institution of Civil Engineers – Engineering History and Heritage* **164(2)**: 65–72, <http://dx.doi.org/10.1680/ehah.10.00002>.

### Engineering Sustainability

Sourani A and Sohail M (2011) Barriers to addressing sustainable construction in public procurement strategies. *Proceedings of the Institution of Civil Engineers – Engineering Sustainability* **164(4)**: 229–237, <http://dx.doi.org/10.1680/ensu.2011.164.4.229>.

Owen A, Mitchell G and Clarke M (2011) Not just any old place: people, places and sustainability. *Proceedings of the Institution of Civil Engineers – Engineering Sustainability* **164(1)**: 5–11, <http://dx.doi.org/10.1680/ensu.2011.164.1.5>.

### Forensic Engineering

Mann A (2011) Cracks in steel structures. *Proceedings of the Institution of Civil Engineers – Forensic Engineering* **164(1)**: 15–23, <http://dx.doi.org/10.1680/feng.2011.164.1.15>.

Maddison B (2012) Scour failure of bridges. *Proceedings of the Institution of Civil Engineers – Forensic Engineering* **165(1)**: 39–52, <http://dx.doi.org/10.1680/feng.2012.165.1.39>.

### Geotechnical Engineering

Zhang LL, Zhang J, Zhang LM and Tang WH (2011) Stability analysis of rainfall-induced slope failure: a review. *Proceedings of the Institution of*

*Civil Engineers – Geotechnical Engineering* **164(5)**: 299–316, <http://dx.doi.org/10.1680/geng.2011.164.5.299>.

Gavin K, Igoe D and Doherty P (2011) Piles for offshore wind turbines: a state-of-the-art review. *Proceedings of the Institution of Civil Engineers – Geotechnical Engineering* **164(4)**: 245–256, <http://dx.doi.org/10.1680/geng.2011.164.4.245>.

### Ground Improvement

Terashi M and Kitazume M (2011) QA/QC for deep-mixed ground: current practice and future research needs. *Proceedings of the Institution of Civil Engineers – Ground Improvement* **164(3)**: 161–177, <http://dx.doi.org/10.1680/grim.2011.164.3.161>.

Paige-Green P (2011) Considerations for ensuring the durability of chemically stabilised road materials. *Proceedings of the Institution of Civil Engineers – Ground Improvement* **164(4)**: 245–252, <http://dx.doi.org/10.1680/grim.9.00044>.

### Management, Procurement and Law

Allport RJ and Anderson RJ (2011) Managing strategic risk – the worldwide experience of metros. *Proceedings of the Institution of Civil Engineers – Management, Procurement and Law* **164(4)**: 173–180, <http://dx.doi.org/10.1680/mpal.2011.164.4.173>.

Aritua B, Male S, Bower D and Madter N (2011) Competencies for the intelligent public sector construction client. *Proceedings of the Institution of Civil Engineers – Management, Procurement and Law* **164(4)**: 193–201, <http://dx.doi.org/10.1680/mpal.10.00019>.

### Maritime Engineering

Cunningham L, Robertshaw G and Pomfret M (2012) Blackpool central area coast protection scheme, UK. *Proceedings of the Institution of Civil Engineers*

– *Maritime Engineering* **165(1)**: 21–29, <http://dx.doi.org/10.1680/maen.2012.165.1.21>.

Nielsen AW, Sumer BM, Fredsøe J and Christensen ED (2011) Sinking of armour layer around a cylinder exposed to a current. *Proceedings of the Institution of Civil Engineers – Maritime Engineering* **164(4)**: 159–172, <http://dx.doi.org/10.1680/maen.2011.164.4.159>.

### Municipal Engineer

Burrage H (2011) Green hubs, social inclusion and community engagement. *Proceedings of the Institution of Civil Engineers – Municipal Engineer* **164(3)**: 167–174, <http://dx.doi.org/10.1680/muen.900030>.

dell'Olio L, Ibeas A and Moura JL (2011) Implementing bike-sharing systems. *Proceedings of the Institution of Civil Engineers – Municipal Engineer* **164(2)**: 89–101, <http://dx.doi.org/10.1680/muen.2011.164.2.89>.

### Structures and Buildings

Oehlers DJ, Ali MSM, Griffith MC, Haskett M and Lucas W (2012) A generic unified reinforced concrete model. *Proceedings of the Institution of Civil Engineers – Structures and Buildings* **165(1)**: 27–49, <http://dx.doi.org/10.1680/stbu.2012.165.1.27>.

Mans DG and Rodenburg J (2000) The Amsterdam Arena: a multi-functional stadium. *Proceedings of the Institution of Civil Engineers – Structures and Buildings* **140(4)**: 323–331, <http://dx.doi.org/10.1680/stbu.2000.140.4.323>.

### Transport

Fox J, Bell D, Edmond G, Cummings P and Langstraat J (2011) A practical tool for low-carbon road design and construction. *Proceedings of the Institution of Civil Engineers – Transport* **164(3)**: 165–179, <http://dx.doi.org/10.1680/tran.2011.164.3.165>.

Sumner H (2012) Briefing: Delivering London 2012: Meeting the transport challenge. *Proceedings of the Institution of Civil Engineers – Transport* **165(4)**: 237–239, <http://dx.doi.org/10.1680/tran.12.00066>.

### Urban Design and Planning

Mohareb NI (2011) Emergency evacuation model: accessibility as a starting point. *Proceedings of the Institution of Civil Engineers – Urban Design and Planning* **164(4)**: 215–224, <http://dx.doi.org/10.1680/udap.2011.164.4.215>.

Greed C (2011) Planning for sustainable urban areas or everyday life and inclusion. *Proceedings of the Institution of Civil Engineers – Urban Design and Planning* **164(2)**: 107–119, <http://dx.doi.org/10.1680/udap.2011.164.2.107>.

### Waste and Resource Management

Banks C, Chessire M, Heaven S, Arnold R and Lewis L (2011) Biocycle anaerobic digester: performance and benefits. *Proceedings of the Institution of Civil Engineers – Waste and Resource Management* **164(3)**: 141–150, <http://dx.doi.org/10.1680/warm.2011.164.3.141>.

Richards DJ and Powrie W (2011) Physical modelling of in-ground waste repository capping systems. *Proceedings of the Institution of Civil Engineers – Waste and Resource Management* **164(1)**: 53–65, <http://dx.doi.org/10.1680/warm.2011.164.1.53>.

### Water Management

Carlevaro F and Gonzalez C (2011) Costing improved water supply systems for developing countries. *Proceedings of the Institution of Civil Engineers – Water Management* **164(3)**: 123–134, <http://dx.doi.org/10.1680/wama.1000043>.

Price D, Hudson K, Boyce G *et al.* (2012) Operational use of a grid-based model for flood forecasting. *Proceedings of the Institution of Civil Engineers – Water Management* **165(2)**: 65–77, <http://dx.doi.org/10.1680/wama.2012.165.2.65>.
