

## Subject index

### Sustainability

Sustainability and the UK construction industry—a review.

Adetunji A., Price A., Fleming P. and Kemp P. Dec., 185–199

Treatment of wastewater for irrigation in Mauritius. Amblin

G. J. Dec., 209–219

Sustainable decision making for the UK water industry. Ashley

R., Blackwood D., Butler D., Davies J., Jowitt P. and Smith H. Mar., 41–49

Corporate social responsibility—unworkable paradox or

sustainable paradigm? *Briefing*. Barry M. Sep., 129–130

Sustainable development: UK Government objectives and the

role of business. *Briefing*. Bender B. Mar., 5–6

Sustainable development: recent thinking and practice in the

UK. Bennett J. and Crudgington A. Mar., 27–32

Registering recycling as a new reality. *Briefing*. Cameron R.

Mar., 9–10

A tale of a sceptical environmentalist. *Briefing*. Chapman T.

and Parkin S. Mar., 17–18

Sustainable development progress—cement and concrete.

*Briefing*. Collins D. Jun., 75–77

The use of ‘managed retreat’ in coastal engineering. Cooper N. J.

Jun., 101–110

Designing for health and safety. *Meeting report*. de Souza J.

Jun., 125–126

Resource flow analysis: measuring sustainability in

construction. Griffiths P. I. J., Smith R. A. and Kersey J. Sep., 147–156

Better buildings through sustainable development. *Briefing*.

Head P. R. Dec., 179–183

A strategy for sustainability. Leiper Q., Fagan N., Engström S.

and Fenn G. Mar., 59–66

Private finance initiative (PFI): the lost green ticket? *Briefing*.

Lockie S. Mar., 11–12

Sustainability indicators for the water industry. *Briefing*.

Luckhurst J. Sep., 135–137

Johannesburg Earth Summit—what next? *Briefing*. Macnair A.

Jun., 69

Ecological footprint analysis as a project assessment tool.

Nicholson I. R., Chambers N. and Green P. Sep., 139–145

Sustainable development: understanding the concept and

practical challenge. Parkin S., Sommer F. and Uren S. Mar., 19–26

Sustainable coastal defence. *Briefing*. Payne H. R. Sep., 131–

133

Sustainability of bitumen use in highways. Peden R. A. Jun.,

95–99

Designing sustainable estuarine intertidal habitats. Pontee N. I.

Sep., 157–167

Lime versus cement: traditional methods for today’s buildings.

*Briefing*. Pritchett I. Jun., 83–85

Protocols for alternative materials in construction. *Briefing*.

Reid M. Dec., 175–177

Sustainable steel construction: building a better future.

*Briefing*. Sansom M. Jun., 81–92

Environmental implications of upland run-of-river hydro

schemes. Shaw T. L. Dec., 201–207

The effects of pumping on the energy potential of a tidal power

barrage. Shaw T. L. and Watson M. J. Jun., 111–117

Flexible power generation from the tides. Shaw T. L. and

Watson M. J. Jun., 119–123

Urban infrastructure procurement in low-income countries.

Sohail M. and Baldwin A. N. Jun., 87–93

Moving towards sustainability in the sewage treatment

industry. *Briefing*. Thornton J. Jun., 79–80

Sustainability accounting in the construction industry. *Briefing*.

Whittingham J., Griffiths E. and Richardson J. Mar., 13–15

Performance of an oil interceptor incorporated into a pervious

pavement. Wilson S., Newman A. P., Puehmeier T. and

Shuttleworth A. Mar., 51–58

Engineers for the twenty-first century. *Briefing*. Wood S. Mar.,

7–8

### Bitumen & tar

Sustainability of bitumen use in highways. Peden R. A. Jun.,

95–99

### Brickwork & masonry

Lime versus cement: traditional methods for today’s buildings.

*Briefing*. Pritchett I. Jun., 83–85

### Building structure & design

Better buildings through sustainable development. *Briefing*.

Head P. R. Dec., 179–183

### Coastal engineering

Sustainable coastal defence. *Briefing*. Payne H. R. Sep., 131–

133

The use of ‘managed retreat’ in coastal engineering. Cooper N. J.

Jun., 101–110

### Codes of practice and standards

Engineers for the twenty-first century. *Briefing*. Wood S. Mar.,

7–8

Sustainability accounting in the construction industry. *Briefing*.

Whittingham J., Griffiths E. and Richardson J. Mar., 13–15

### Concrete structures

Sustainable development progress—cement and concrete.

*Briefing*. Collins D. Jun., 75–77

### Conservation

Lime versus cement: traditional methods for today’s buildings.

*Briefing*. Pritchett I. Jun., 83–85

## Contracting

Sustainability and the UK construction industry—a review.  
Adetunji A., Price A., Fleming P. and Kemp P. Dec., 185–199

## Dams, barrages & reservoirs

Environmental implications of upland run-of-river hydro schemes. Shaw T. L. Dec., 201–207  
Flexible power generation from the tides. Shaw T. L. and Watson M. J. Jun., 119–123  
The effects of pumping on the energy potential of a tidal power barrage. Shaw T. L. and Watson M. J. Jun., 111–117

## Developing countries

Urban infrastructure procurement in low-income countries.  
Sohail M. and Baldwin A. N. Jun., 87–93

## Drainage and irrigation

Performance of an oil interceptor incorporated into a pervious pavement. Wilson S., Newman A. P., Puehmeier T. and Shuttleworth A. Mar., 51–58  
Treatment of wastewater for irrigation in Mauritius. Amblin G. J. Dec., 209–219

## Economics and finance

Designing for health and safety. *Meeting report*. de Souza J. Jun., 125–126  
Private finance initiative (PFI): the lost green ticket? *Briefing*. Lockie S. Mar., 11–12  
Sustainable development: recent thinking and practice in the UK. Bennett J. and Crudgington A. Mar., 27–32  
Sustainable development: understanding the concept and practical challenge. Parkin S., Sommer F. and Uren S. Mar., 19–26

## Environment

A tale of a sceptical environmentalist. *Briefing*. Chapman T. and Parkin S. Mar., 17–18  
Designing sustainable estuarine intertidal habitats. Pontee N. I. Sep., 157–167  
Johannesburg Earth Summit—what next? *Briefing*. Macnair A. Jun., 69  
Moving towards sustainability in the sewage treatment industry. *Briefing*. Thornton J. Jun., 79–80  
Sustainable decision making for the UK water industry. Ashley R., Blackwood D., Butler D., Davies J., Jowitt P. and Smith H. Mar., 41–49  
Sustainable development progress—cement and concrete. *Briefing*. Collins D. Jun., 75–77  
Sustainable development: understanding the concept and practical challenge. Parkin S., Sommer F. and Uren S. Mar., 19–26  
Sustainable steel construction: building a better future. *Briefing*. Sansom M. Jun., 81–92  
Urban infrastructure procurement in low-income countries. Sohail M. and Baldwin A. N. Jun., 87–93

## Health & safety

Designing for health and safety. *Meeting report*. de Souza J. Jun., 125–126

## History

Lime versus cement: traditional methods for today's buildings. *Briefing*. Pritchett I. Jun., 83–85

## Hydraulics & hydrodynamics

Designing sustainable estuarine intertidal habitats. Pontee N. I. Sep., 157–167  
The effects of pumping on the energy potential of a tidal power barrage. Shaw T. L. and Watson M. J. Jun., 111–117  
Flexible power generation from the tides. Shaw T. L. and Watson M. J. Jun., 119–123

## Infrastructure & planning

Denmark's sustainable energy future. Amos J. Mar., 33–39  
Urban infrastructure procurement in low-income countries. Sohail M. and Baldwin A. N. Jun., 87–93

## Liability

Corporate social responsibility—unworkable paradox or sustainable paradigm? *Briefing*. Barry M. Sep., 129–130

## Marketing & public relations

Corporate social responsibility—unworkable paradox or sustainable paradigm? *Briefing*. Barry M. Sep., 129–130

## Management

Sustainability and the UK construction industry—a review. Adetunji A., Price A., Fleming P. and Kemp P. Dec., 185–199  
Sustainable decision making for the UK water industry. Ashley R., Blackwood D., Butler D., Davies J., Jowitt P. and Smith H. Mar., 41–49  
The use of 'managed retreat' in coastal engineering. Cooper N. J. Jun., 101–110

## Municipal & public service engineering

Denmark's sustainable energy future. Amos J. Mar., 33–39

## Pavement design

Performance of an oil interceptor incorporated into a pervious pavement. Wilson S., Newman A. P., Puehmeier T. and Shuttleworth A. Mar., 51–58

## Planning & scheduling

Designing for health and safety. *Meeting report*. de Souza J. Jun., 125–126  
Ecological footprint analysis as a project assessment tool. Nicholson I. R., Chambers N. and Green P. Sep., 139–145

## Pollution

Performance of an oil interceptor incorporated into a pervious pavement. Wilson S., Newman A. P., Puehmeier T. and Shuttleworth A. Mar., 51–58

## Power stations (non-fossil fuel)

Environmental implications of upland run-of-river hydro schemes. Shaw T. L. Dec., 201–207  
Flexible power generation from the tides. Shaw T. L. and Watson M. J. Jun., 119–123  
The effects of pumping on the energy potential of a tidal power barrage. Shaw T. L. and Watson M. J. Jun., 111–117

### Public health

Treatment of wastewater for irrigation in Mauritius. Amblin G. J. Dec., 209–219

### Recycling of materials

Protocols for alternative materials in construction. *Briefing*. Reid M. Dec., 175–177

Registering recycling as a new reality. *Briefing*. Cameron R. Mar., 9–10

Resource flow analysis: measuring sustainability in construction. Griffiths P. I. J., Smith R. A. and Kersey J. Sep., 147–156

Sustainability of bitumen use in highways. Peden R. A. Jun., 95–99

### Rehabilitation, reclamation & renovation

Designing sustainable estuarine intertidal habitats. Pontee N. I. Sep., 157–167

### Research & development

Resource flow analysis: measuring sustainability in construction. Griffiths P. I. J., Smith R. A. and Kersey J. Sep., 147–156

### Review

Sustainability and the UK construction industry—a review. Adetunji A., Price A., Fleming P. and Kemp P. Dec., 185–199

### Roads & highways

Sustainability of bitumen use in highways. Peden R. A. Jun., 95–99

### Sea defences

Sustainable coastal defence. *Briefing*. Payne H. R. Sep., 131–133

The use of ‘managed retreat’ in coastal engineering. Cooper N. J. Jun., 101–110

### Sewage treatment and disposal

Moving towards sustainability in the sewage treatment industry. *Briefing*. Thornton J. Jun., 79–80

Treatment of wastewater for irrigation in Mauritius. Amblin G. J. Dec., 209–219

### Sewers & drains

Sustainable decision making for the UK water industry. Ashley R., Blackwood D., Butler D., Davies J., Jowitt P. and Smith H. Mar., 41–49

### Social impact

Corporate social responsibility—unworkable paradox or sustainable paradigm? *Briefing*. Barry M. Sep., 129–130

Sustainable decision making for the UK water industry. Ashley R., Blackwood D., Butler D., Davies J., Jowitt P. and Smith H.

Sustainable development: understanding the concept and practical challenge. Parkin S., Sommer F. and Uren S. Mar., 19–26

### Steel structures

Sustainable steel construction: building a better future. *Briefing*. Sansom M. Jun., 81–92

### Town & city planning

Denmark’s sustainable energy future. Amos J. Mar., 33–39

### Waste management & disposal

Better buildings through sustainable development. *Briefing*. Head P. R. Dec., 179–183

Resource flow analysis: measuring sustainability in construction. Griffiths P. I. J., Smith R. A. and Kersey J. Sep., 147–156

### Water supply

Sustainability indicators for the water industry. *Briefing*. Luckhurst J. Sep., 135–137
