

Retraction Notice: Digital financial inclusion (DFI) can improve the economic growth: a study of India

932

The publisher of *Journal of Facilities Management* wishes to retract the article Sreenu N (2025), “Digital financial inclusion (DFI) can improve the economic growth: a study of India”, *Journal of Facilities Management*, Vol. 23 No. 1 pp. 122–140, doi: <https://doi.org/10.1108/JFM-01-2023-0011>. It has come to our attention that there are concerns with the underlying data, methodology and reported results. Specifically, the dataset provided by the author did not include all the data reported in the article. In addition, issues were identified related to inconsistent reporting of the study period, insufficient clarity and citation of data sources, and technical inconsistencies in the reported statistical results. Collectively, these issues undermine confidence in the reliability of the results and conclusions presented. As a result of these concerns, the findings of the article cannot be relied upon. The author of this paper would like to note that they do not agree with the content of this notice. The publisher of the journal sincerely apologizes to the readers.
