

Proceedings of the Institution of Civil Engineers 2004: Geotechnical Engineering, vol. 157

Author index

Allenby D. and Ropkins J. W. T.

The use of jacked-box tunnelling under a live motorway. Oct., 229–238

Anagnostopoulos A. see Mihalís I. K. *et al.*

Armitage R. see McDowell G. R. *et al.*

Bell A. see McKelvey D. *et al.*

Benson C. H. see Bin-Shafique S. *et al.*

Bin-Shafique S., Edil T. B., Benson C. H. and Senol A.
Incorporating a fly-ash stabilised layer into pavement design. Oct., 239–249

Brown D. A.

Hull wastewater flow transfer tunnel: recovery of tunnel collapse by ground freezing. Apr., 77–83

Cavus U. S. see Keskin S. N. *et al.*

Charles J. A. and Skinner H. D.

Settlement and tilt of low-rise buildings. Apr., 65–75

Chmoulian A. Y.

Analysis of piled stabilisation of landslides. *Briefing*. Apr., 55–56

Chu J. see Yan S. W. and Chu J.

Clark A. R. see Wood H. J. *et al.*

Clayton C. R. I. see Richards D. J. *et al.*

Collop A. C. see McDowell G. R. *et al.*

Coppinger J. see Farrell E. R. and Coppinger J.

Dixon N., Ng'ambi S., Jones D. R. V.

Structural performance of a steep slope landfill lining system. Jul., 115–125

Driscoll R.

Editorial. Jan., 1

Editorial. Oct., 163

Edil T. B. see Bin-Shafique S. *et al.*

Farrell E. R. and Coppinger J.

Passive groundwater control system for a motorway. Oct., 209–217

Feenstra R. see Karim U. F. A. *et al.*

Ferguson D. see Sivakumar V. *et al.*

Fort D. S. see Wood H. J. *et al.*

Gandhi S. R. see Maharaj D. K. and Gandhi, S. R.

Graham J. McKelvey D. *et al.*

Greenwood J. R., Norris J. E. and Wint J.

Assessing the contribution of vegetation to slope stability. Oct., 199–208

Hayward T. see Richards D. J. *et al.*

Henderson T. O. and Pickles A. R.

Geotechnical management on major infrastructure projects. Oct., 165–171

Holt C. C. see Shein A. *et al.*

Jeon S.-S.

Interpretation of load tests on minipiles. Apr., 85–90

Jessep R. A. see Unwin H. and Jessep R. A.

Jones D. R. V. see Dixon N. *et al.*

Karim U. F. A., van Meekeren H. and Feenstra R.

Settlement of a bridge embankment on soft soils. Jan., 9–12

Keskin S. N., Cavus U. S. and Yildirim, H.

Slope stability of earthfill dams: a case study of Kızılca dam. *Briefing*. Jan., 3–7

Lim W. L. see McDowell G. R. *et al.*

Machon A. and Stevens S.

Wastewater flow transfer tunnel: design and construction. Jul., 101–106

Maharaj D. K. and Gandhi S. R.

Non-linear finite element analysis of piled-raft foundations. Jul., 107–113

McDowell G. R., Lim W. L., Collop A. C., Armitage R. and Thom N. H.

Comparison of ballast index tests for railway trackbeds. Jul., 151–161

McGinnity B. see Ridley A. *et al.*

McKelvey D., Sivakumar V., Bell A. and Graham J.

Modelling vibrated stone columns in soft clay. Jul., 137–149

McKinley J. D. see Sivakumar V. *et al.*

McNamara A. M. see Morrison P. R. J. *et al.*

Mihalís I. K., Tsiambaos G. and Anagnostopoulos A.

Jet grouting applications in soft rocks: the Athens Metro case. Oct., 219–228

Morrison P. R. J., McNamara A. M. and Roberts T. O. L.

Design and construction of a deep shaft for Crossrail. Oct., 173–182

Ng'ambi S. see Dixon N. *et al.*

Norris J. E. see Greenwood J. R. *et al.*

Pickles A. R. see Henderson T. O. and Pickles A. R.

Powrie W. see Richards D. J. *et al.*

Richards D. J., Clayton C. R. I., Powrie W. and Hayward T.

Geotechnical analysis of a retaining wall in weak rock. Jan., 13–26

Ridley A., McGinnity B. and Vaughan P.

Role of pore water pressures in embankment stability. Oct., 193–198

Roberts T. O. L. see Morrison P. R. J. *et al.*

Robertson M. see Wood H. J. *et al.*

Ropkins J. W. T. see Allenby D. and Ropkins J. W. T.

Russo G.

Full-scale load tests on instrumented micropiles. Jul., 127–135

Senol A. *see* Bin-Shafique S. *et al.*

Shein A., Snaith M. S. and Holt C. C.

Optimal design of highway cuttings in residual soils. Jan., 37–47

Sivakumar V., McKinley J. D. and Ferguson D.

Reuse of construction waste: performance under repeated loading. Apr., 91–96

Sivakumar V. *see also* McKelvey D. *et al.*

Skinner H. D. *see* Charles J. A. and Skinner H. D.

Snaith M. S. *see* Shein A. *et al.*

Stevens S. *see* Machon A. and Stevens S.

Thom N. J. *see* McDowell G. R. *et al.*

Trenter N. A.

Approaches to the design of cantilever retaining walls. Jan., 27–35

Tsiambaos G. *see* Mihalidis I. K. *et al.*

Unwin H. and Jessep R. A.

Long-term pile testing in London Clay: a case study. Apr., 57–63

van Meekeren H. *see* Karim U. F. A. *et al.*

Vaughan P. *see* Ridley A. *et al.*

Whitaker D.

Groundwater control for the Stratford CTRL station box. Oct., 183–191

Wint J. *see* Greenwood J. R. *et al.*

Wood H. J., Fort D. S., Clark A. R. and Robertson M.

Cliff-top stabilisation of the Military Road, Isle of Wight. Oct., 251–258

Yan S. W. and Chu J.

A new explosive method for soil improvement. Oct., 259–265

Yıldırım H. *see* Keskin S. N. *et al.*
