

Announcement: Award winning papers in 2004

Papers published in *Geotechnical Engineering* are eligible for awards from the Institution of Civil Engineers. Papers from any of the ICE journals can be nominated for several awards. In addition, each journal has awards dedicated to their specific subject area.

On Tuesday 25 October 2005, outgoing ICE president Colin Clinton will present awards to the following papers published in *Geotechnical Engineering* in 2004. The editorial panel nominated their best papers and an awards committee chaired by David Hodgkinson allocated the awards.

The Halcrow Prize (2), presented for the best paper on geotechnical aspects of construction, has been awarded to: Charles J. A. and Skinner H. D. Settlement and tilt of low-rise buildings. *Proceedings of the Institution of Civil*

Engineers—Geotechnical Engineering, 2004, 157, No. 2, 65–75.

The Reed and Mallik Medal, presented for the best paper on waste management, has been awarded to: Dixon N., Ng'ambi S. and Jones D. R. V. Structural performance of a steep slope landfill lining system. *Proceedings of the Institution of Civil Engineers—Geotechnical Engineering*, 2004, 157, No. 3, 115–125.

The Telford Prize (3), presented for the second best paper on geotechnical aspects of construction, has been awarded to: Morrison P. R. J., McNamara A. and Roberts T. O. L. Design and construction of a deep shaft for Crossrail. *Proceedings of the Institution of Civil Engineers—Geotechnical Engineering*, 2004, 157, No. 4, 173–182.
