

## CORRIGENDA.

April 1949 Journal (Paper No. 5663—O'Sullivan):—

p. 180, third line from bottom; for a family of lines shown dotted read a family of full lines.

p. 183, line 1; for  $n_1$  read  $x_1$ .

pp. 186 and 187, *Figs 11, 12, and 13*; for  $\frac{1}{1 + \frac{r}{mc}}$  read  $\frac{1}{1 + \frac{t}{mc}}$ .

p. 190, *Fig. 18*; for  $\frac{bdr}{Pm}$  read  $\frac{bdt}{Pm}$ .

p. 194, extreme right-hand side of *Fig. 23*; for  $e$  read  $g$ .

Table 1, facing p. 198, phases F and G; for  $u_1 = -0.28$  read  $u_1 = -0.98$ .

Table 1, facing p. 198, phase JII; for  $\frac{T\left(\frac{h}{2} - x + e\right)}{t(h - 2x)}$  read  $\frac{T\left(\frac{h}{2} - x - e\right)}{t(h - 2x)}$ .

p. 199, *Fig. 27 (a)*; for  $\frac{1}{1 + \frac{r}{mc}}$  read  $\frac{1}{1 + \frac{t}{mc}}$ .

p. 199, *Fig. 27 (b)*; for  $u_1 = 9.05$  read  $x_1 = 0.05$ ; for  $u_1 = 0.15$  read  $x_1 = 0.15$ .
