

Papers, books and articles on cement and concrete*

SEPTEMBER-DECEMBER 1957

MATERIALS

Cement

MANUFACTURE

COURTAULT, B. and LONGUET, P. P. Etude sur le dosage précis de l'alumine dans les matières premières et les produits de l'industrie des ciments. (Investigation of the exact proportion of alumina in the raw materials and the products of the cement industry.) *Revue des Matériaux de Construction et de Travaux Publics (Edition C)*. No. 505. October 1957. pp. 283-286.

MUSSGNUG, G. Beitrag zur Frage der Granulierfähigkeit von Zementrohmehlen. (The nodulizing properties of raw cement mixes.) *Tagungsberichte der Zementindustrie*. No. 15. 1957. pp. 37-54.

PAPADAKIS, M. La rhéologie dans l'industrie cimentière. (Rheology in the cement industry.) *Silicates Industriels*. Vol. 22. No. 11. November 1957. pp. 612-615. No. 12. December 1957. pp. 675-681.

PECIÑA, D. L. Interpretación del análisis químico de los humos en los hornos de cemento portland. (Interpretation of the chemical analysis of exhaust gases in Portland cement kilns.) *Cemento Hormigón*. Vol. 25. No. 284. November 1957. pp. 520-530. No. 285. December 1957. pp. 570-581.

RATHSMANN, E. Luftforderrinnen für Zement. (Air-slides for cement.) *Beton Herstellung Verwendung*. Vol. 7. No. 12. 15th December 1957. pp. 384-387.

PROPERTIES

ALBRECHT, W. Über die Raumänderungen des Einpressmörtels. (The volumetric changes of grout.) *Beton- und Stahlbetonbau*. Vol. 52, No. 12. December 1957. pp. 302-307.

BEAN, L. The strontium oxide content of Portland cements. *ASTM Bulletin*. No. 224. September 1957. pp. 42-43.

BERNARD, P. Nouveau procédé pour l'étude au microscope électronique des pâtes de ciment susceptibles de durcissement. (New procedure for the examination of hardening cement pastes by means of the electronic microscope.) *Revue de Matériaux de Construction et de Travaux Publics (Edition C)*. No. 507. December 1957. pp. 351-361.

BOGUE, R. H. Aufgaben auf dem Gebiet der Zementforschung. (Problems in cement research.) *Tagungsberichte der Zementindustrie*. No. 16. 1957. pp. 7-20.

CELIS, R. Le phénomène de la fausse prise dans le ciment portland. (The phenomenon of false set in Portland cement.) *Silicates industriels*. Vol. 22, No. 10. October 1957. pp. 541-546.

CENTRAL ROAD RESEARCH INSTITUTE, INDIA. Compaction of tensile briquettes in cement testing—adjustment study. *Indian Standards Institution Bulletin*. Vol. 9. No. 6. November 1957. pp. 234-240, 247.

COÛARD, A. *Nouvelle conception de la résistance des matériaux*. (New ideas on the strength of materials.) 2nd edition. Paris, Génie Civil, 1957. pp. 114.

CZERNIN, W. Travaux sur la tenue au gel des ciments de l'Institut de Recherches de l'Association Autrichienne des Fabricants de Ciment. (Work on the frost behaviour of cements at the Research Institute of the Austrian Association of Cement Manufacturers.) *Revue des Matériaux de Construction et de Travaux Publics (Edition C)*. No. 503-504. August-September 1957. pp. 274-278.

CZERNIN, W. Über die Schrumpfung des erhärtenden Zementes. (The contraction of hardening cement.) *Tagungsberichte der Zementindustrie*. No. 15. 1957. pp. 17-36.

GRIEB, W. E. and WERNER, G. Tests of concrete containing Portland blast-furnace slag cement. *Public Roads*. Vol. 29, No. 10. October 1957. pp. 227-232.

KÉZDI, A. Erfahrungen mit der Zement-Bodenvermörtelung in Ungarn. (Experience with soil-cement in Hungary.) *Strassen und Tiefbau*. Vol. 11, No. 9. September 1957. pp. 525-529.

*All items listed are held in the C & CA library. For the benefit of readers who wish to index these references, separate unbacked copies of this section of the *Magazine* may be obtained free of charge from the Editor.

- KOTTAS, H. and UHL, F. Über schaltechnische Masszahlen für Zemente. (Acoustic values for cements.) *Schweizer Archiv für Angewandte Wissenschaft und Technik*. Vol. 23, No. 11. November 1957. p. 374.
