

Papers and books on cement and concrete

received in the C&CA Library JANUARY-MARCH 1969*

MATERIALS

Cement

MANUFACTURE

BOZENOV, P. I. and CHOLOPOVA, L. I. Report on manufacturing method, properties and costs of a Portland cement coloured already in the clinker. *Tsement*. Vol. 31, No. 6. 1965. pp. 9-10. Translated from the Russian by Werner Welton. Hamburg. 1968. pp. 13.

BUZZI, S. Zusammenhang und Einfluss der Vorhomogenisierungsverfahren auf die Mischungssteuerung der Zementrohmaterialien durch Röntgenfluoreszenzanalyse und Digitalrechner. (Relationship and influence of the prehomogenisation process upon mix control of cement raw materials by means of X-ray fluorescence analysis and digital computer.) *Zement-Kalk-Gips*. Vol. 58, No. 1. January 1969. pp. 10-15.

GRINFEDER, C. Computers resolve thorny design problems of mammoth cement kiln for Belgium. *Minerals Processing*. Vol. 9, No. 1. January 1968. pp. 14-16, 26.

HENKEL, F. Röntgenfluoreszenzanalytische Vergleichsversuche an Zementrohmehlen. (Comparative tests on cement raw mixes by means of X-ray fluorescence analysis.) *Zement-Kalk-Gips*. Vol. 58, No. 1. January 1969. pp. 5-9.

KAWERT, K. Entwicklung eines LH-Zementes von hoher Sulfatbeständigkeit. (Development of a low-heat cement with high sulphate resistance.) *Zement-Kalk-Gips*. Vol. 57, No. 7. July 1968. pp. 287-292.

MACKLIN, M. O. and WILCK, K. Die Automatisierung von Anlagen zur Klinkerherstellung. (The automation of clinker-producing plants.) *Zement-Kalk-Gips*. Vol. 58, No. 1. January 1969. pp. 16-19.

STÜRMER, W. Systemanalyse eines Lepolofens. (System analysis of a Lepol kiln.) *Zement-Kalk-Gips*. Vol. 58, No. 1. January 1969. pp. 20-23.

PROPERTIES

COLLEPARDI, M., ROSSI, G. and USAI, G. L'idratazione in pasta ed in mulino a sfere del silicato tricalcico in presenza di cloruro di calcio. (The paste and ball mill hydration of tricalcium silicate in the presence of calcium chloride.) *L'Industria Italiana del Cemento*. Vol. 38, No. 10. October 1968. pp. 657-662.

HOSEK, J. and SEREDA, P. J. Effect of organic surface agents on properties of hydrated cement compacts. *Materials and Structures*. Vol. 1, No. 1. January/February 1968. pp. 7-12.

LACHAUD, R. Le comportement du ciment à la chaleur. Etude de l'évolution d'une alite hydratée dans le gamme de température 20-400°C. (Behaviour of cement exposed to heat. Study of the evolution of an hydrated alite between 20 and 400°C.) *Materials and Structures*. Vol. 1, No. 4. July/August 1968. pp. 365-378.

MAMEDOV, H. S., CHATTERJI, S. and JEFFERY, J. W. Strengths of Portland cement—2: tensile strength. *The Indian Concrete Journal*. Vol. 42, No. 7. July 1968. pp. 287-289.

MIDGLEY, H. G. The composition and possible structure of the quaternary phase in high-alumina cement and its relation to other phases in the system CaO-MgO-Al₂O₃. *Translations of the British Ceramic Society*. Vol. 67, No. 1. January 1968. pp. 1-13.

PELTIER, R. Prospective de l'utilisation des ciments dans les ouvrages d'art. (A survey on the use of cements in civil engineering structures. *Revue des Matériaux de Construction et de Travaux Publics*. No. 633/634. June/July 1968. pp. 239-243.

ROOS, J. T. H. and PRICE, W. J. A comprehensive scheme for the analysis of cement by atomic-absorption spectrophotometry. *Analyst*. Vol. 94. February 1969. pp. 89-93.

TROMEL, G., FIX, W. and HEINKE, R. Hochtemperaturuntersuchungen bis 1900°C an calciumorthosilikat und tricalciumsilikat. (High temperature investigations up to 1900°C on calcium orthosilicate and tricalcium silicate.) *Tonindustrie Zeitung*. Vol. 93, No. 1. 30 January 1969. pp. 1-7.

TURRIZIANI, R. and COLLEPARDI, M. L'idratazione del solfo-trialuminato tetracalcico. (The hydration of anhydrous calcium aluminosulphate.) *L'Industria Italiana del Cemento*. Vol. 38, No. 12. December 1968. pp. 785-791.

Aggregates

GLEDENNING, T. G., KELLAM, B. and MacINNIS, G. Hydrogen evolution from ferro-phosphorous aggregate in portland cement concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 12. December 1968. pp. 1021-1028.

Reinforcement

COMMISSIE VOOR UITVOERING VAN RESEARCH INGESTELD DOOR DE BETONVERENIGING. *Wrijvingsverliezen in Spanelemeten*. (Frictional losses in prestressing tendons.) 1965. pp. 49. CUR Report No. 30. Translated from the Dutch by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 33.

FRAZIER, K. S. The case of galvanized rebars. *Concrete Construction*. Vol. 12, No. 7. July 1967. pp. 255-256.

HANSON, J. M., BURTON, K. T. and HOGNESTAD, E. Fatigue tests of reinforcing bars—effect of deformation pattern. *Journal of the PCA Research and Development Laboratories*. Vol. 10, No. 3. September 1968. pp. 2-13.

* For the benefit of readers who wish to index these references, separate unbacked copies of this section of the *Magazine* may be obtained free of charge from the Editor.

HELMS, S. B. and BOWMAN, A. L. Corrosion of steel in light-weight concrete specimens. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 12. December 1968. pp. 1011-1016.

KULKA, F. Prestressing systems for secondary and primary containment structures. *Nuclear Engineering and Design*. Vol. 8, No. 4. November/December 1968. pp. 435-439.

MONFORE, G. E. A review of fiber reinforcement of portland cement paste, mortar and concrete. *Journal of the PCA Research and Development Laboratories*. Vol. 10, No. 3. September 1968. pp. 43-49.

MUSPRATT, M. A. The effects of elevated temperatures on concrete prestressed with alloy steel bars. *The Indian Concrete Journal*. Vol. 42, No. 12. December 1968. pp. 516-522.

PARKER, E. R. High-strength steels for possible use in prestressed concrete nuclear reactor vessels. *Nuclear Engineering and Design*. Vol. 8, No. 4. November/December 1968. pp. 440-442.

PODOLNY, W. Structural fabric reinforcement in concrete slabs. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 877-884.

REHM, G. Über die Grundlagen des Verbundes zwischen Stahl und Beton. (The principles of the bond between steel and concrete.) *Deutscher Ausschuss für Stahlbetonbau*. No. 138. 1961. pp. 56. Translated from the German by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 68. Library Translation Cj.134.

ROBINSON, J. R. L'Etat des recherches de L'I.R.A.B.A. sur les aciers de couture du béton armé. (Progress of research undertaken by the I.R.A.B.A. (Institute of Applied Research on Reinforced Concrete) on connector bars in reinforced concrete.) *Annales de L'Institut Technique du Bâtiment et des Travaux Publics*. No. 246. June 1968. pp. 1020-1043.

CONCRETE

Mix design and quality control

ANON. De fine gruspartiklers betydning for betonoverfladers udseende. (The importance of the fine sand particles in the appearance of concrete surfaces.) *Beton-Teknik*. Vol. 33, No. 2. pp. 37-44. Translated from the German by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 13.

EXPANDED SHALE, CLAY AND SLATE INSTITUTE. *Suggested mix design for structural lightweight concrete*. Washington, D.C., 1965. pp. 1. No. 3. Revised 3-65.

JURECKA, W. Recent developments and tendencies in concrete mixers and mixing plants. *Osterreichische Ingenieur Zeitschrift*. Vol. 10, No. 2. 1967. pp. 37-43.

SOROKA, I. An application of statistical procedures to quality control of concrete. *Materials and Structures*. Vol. 1, No. 5. September/October 1968. pp. 437-441.

Properties

ANON. Temperaturbestandighed af beton. (Temperature resistance of concrete.) *Beton Teknik*. No. 4. 1967. pp. 137-146. Translated from the Danish by Miss G. N. Gibson. London Cement and Concrete Association, 1968. pp. 14.

HANNANT, D. J. The mechanism of creep in concrete. *Materials and Structures*. Vol. 1, No. 5. September/October 1968. pp. 403-410.

HEATON, B. S. Strength, durability and shrinkage of incompletely compacted concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 846-850.

KRISHNASWAMY, K. T. Strength and microcracking of plain concrete under triaxial compression. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 856-862.

MILLS, R. H. Creep and shrinkage of concrete containing mixtures of Portland cement and high-magnesia blastfurnace slag. *Civil Engineer in South Africa*. Vol. 11, No. 1. January 1969. pp. 1-11.

ODEEN, K. *Fire resistance of prestressed concrete double T-units*. Stockholm, Acta Polytechnica Scandinavica Publishing Office, 1968. pp. 75. Civil Engineering and Building Construction Series No. 48.

Jointing

KOROLOEV, L. V. and KOROVIN, N. N. Problems in the calculation and construction of a socket between a precast reinforced column and the foundation. *Promyshlennoe Stroitel'stvo*. Vol. 41, No. 6. 1964. pp. 44-48. Translated from the Russian by the National Lending Library. Boston Spa, 1968. pp. 13.

L'HERMITE, R. Les résines synthétiques dans la structure. (Structural use of synthetic resins.) *L'Architecture d'Aujourd'hui*. No. 141. December 1968/January 1969. pp. 105-108.

TESTING

General

CORLEY, W. G. and HAWKINS, N. M. Shearhead reinforcement of slabs. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 811-824.

HAMILTON, W. A. Dynamic response of pretensioned prestressed concrete beams. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 851-855.

MARTIN, C. W. Spirally prestressed concrete cylinders. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 10. October 1968. pp. 837-845.

PANDIT, G. S. Combined bending and torsion of concrete beams. *The Indian Concrete Journal*. Vol. 42, No. 9. September 1968. pp. 355-360.

POZZO, E. The rheological behaviour of the dynamically stressed concrete. Experimental investigation. *Materials and Structures*. Vol. 1, No. 5. September/October 1968. pp. 411-424.

STEINECKE, M., PROKOPWICZ, J. and BACH, W. Experimentelle Untersuchung des Schalungsdrucks und der Schalungsreibung bei Gleitschalungen. (Experimental study of the pressure exerted on, and the friction encountered by, sliding formwork.) *Bauplanung-Bautechnik*. Vol. 18, No. 7. July 1964. pp. 342-344. No. 8. August 1964. pp. 395-397. No. 9. September 1964. pp. 146-149. Translated from the German by C. V. Amerongen. London, Cement and Concrete Association, February 1968. pp. 13. Library translation Cj. 127.

Structural

ANDERSSON, J. L. Genomstansning av lift slabs. (Punching of lift slabs.) *Nordisk Betong*. Vol. 7, No. 3. 1963. pp. 229-251. Translated from the Swedish by Miss Gibson. London, Cement and Concrete Association, 1968. pp. 23.

BEKOWICH, R. S. Instrumentation in prestressed concrete containment structures. *Nuclear Engineering and Design*. Vol. 8, No. 4. November/December 1968. pp. 500-512.

FRTZELL, G. Undersökning av sprickbildning i slakarmerade T-balkar över stöd. (Investigation of crack formation in flanges of reinforced concrete T-beams subject to negative bending moments.) *Nordisk Betong*. Vol. 10, No. 1. 1966. pp. 31-42.

PANNELL, F. N. and ROBINSON, J. L. Slender reinforced concrete columns with biaxial eccentricity of loading. *Magazine of Concrete Research*. Vol. 20, No. 65. December 1968. pp. 195-204.

SWAMY, R. N. and ADEPEGBA, D. Shear resistance of reinforced beams without web steel. *Building Science*. Vol. 3, No. 4. February 1969. pp. 207-220.

Models

ARMER, G. S. T. Ultimate load tests of slabs designed by the strip method. *Proceedings of the Institution of Civil Engineers*. Vol. 41. October 1968. pp. 313-331.

PURANDARE, N. N., SHARMA, S. P. and GOEL, B. K. Torsion in beam in monolithic reinforced concrete frame. *The Indian Concrete Journal*. Vol. 42, No. 11. November 1968. pp. 479-482.

SOZEN, A. and PAUL, S. L. Structural behaviour of a small-scale prestressed concrete reactor vessel. *Nuclear Engineering and Design*. Vol. 8, No. 4. November/December 1968. pp. 403-414.

WANECKI, J. Essais sur modèles réduits de dalles à goussets précontraintes. (Tests on small-scale models of slabs with prestressed gusset plates.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. 1967. Vol. 20, No. 240. pp. 1729-1746.

Apparatus

CRUZ, C. R. Apparatus for measuring creep of concrete at high temperatures. *Journal of the PCA Research and Development Laboratories*. Vol. 10, No. 3. September 1968. pp. 36-42.

JORDAAN, I. J. and ILLSTON, J. M. A creep rig for testing concrete under multiaxial compressive stress. *Magazine of Concrete Research*. Vol. 20, No. 65. December 1968. pp. 235-239.

KRISHNASWAMY, K. T. Measurement of internal strains in concrete. *Materials and Structures*. Vol. 1, No. 4. July/August 1968. pp. 361-364.

LEHMANN, H. and RAUSCHENFELS, E. Ein neues Frostdilatometer für Problem im Format von Normenprismen. (A new frost dilatometer for specimens up to the size of standard prisms.) *Tonindustrie Zeitung*. Vol. 93, No. 1. 30 January 1969. pp. 8-1P.

Methods

ACCELERATED TESTING COMMITTEE. An accelerated test for concrete. *Proceedings of the Institution of Civil Engineers*. Vol. 40. May 1968. pp. 125-129.

ANON. British standard for non-destructive testing of concrete. *Concrete Building and Concrete Products*. Vol. 44, No. 3. March 1969. p. 44.

ANON. Quelques adresses de constructeurs de matériel. (Measuring degrees of fineness in the hydraulic binder industry.) *Revue des Matériaux de Construction et de Travaux Publics*. No. 629. February 1968. pp. 81.

de VEKEY, R. C. and MAJUMDAR, A. J. Determining bond strength in fibre-reinforced composites. *Magazine of Concrete Research*. Vol. 20, No. 65. December 1968. pp. 229-234.

JOHNSTON, C. D. and SIDWELL, E. H. Testing concrete in tension and in compression. *Magazine of Concrete Research*. Vol. 20, No. 65. December 1968. pp. 221-228.

JONES, R. and FACAOARU, I. An analysis of answers to a questionnaire on the ultrasonic pulse technique. *Materials and Structures*. Vol. 1, No. 5. September/October 1968. pp. 457-465.

PETERSONS, N. Should standard cube test specimens be replaced by test specimens taken from structures? *Materials and Structures*. Vol. 1, No. 5. September/October 1968. pp. 424-435.

SELIGMANN, P. Nuclear magnetic resonance studies of the water in hardened cement paste. *Journal of the PCA Research and Development Laboratories*. Vol. 10, No. 1. January 1968. pp. 52-63.

CONSTRUCTIONAL TECHNIQUES

ANON. Bodenfestigung mit Zement unter Eisenbahngleisen. (Soil stabilizations with cement below railway tracks.) *Beton Herstellung Verwendung*. Vol. 18, No. 4. April 1968. pp. 138-150.

ANON. Pumping concrete. *Concrete Construction*. Vol. 13, No. 11. November 1968. pp. 413-426.

ANON. Revised British Standards for concrete blocks. *Concrete Building and Concrete Products*. Vol. 43, No. 12. December 1968. pp. 187-189.

ARRIBEAUTE, P. Chaussées en béton de ciment. (Concrete carriageways.) *Revue Générale des Routes et des Aérodrômes*. Vol. 39, No. 439. January 1969. pp. 29-31.

BOROVICKA, L. Structural standardisation of prestressed concrete railway bridges. *SNTL Technical Digest*. Vol. 10, No. 12. December 1968. pp. 784-792.

BROADBENT, B. H. How solving framework problems can cut concrete costs. *The Indian Concrete Journal*. Vol. 42, No. 9. September 1968. pp. 366-367.

BURKS, A. E. and McLELLAN, J. C. *Construction with the slip-form paver: reinforced concrete*. Crowthorne, Road Research Laboratory, September 1966. pp. 48. RRL Technical Note No. 102.

DOBROLUBOV, G. *Foundationsschichten von Kiessand im Strassenbau*. (Gravel-sand sub-bases in road construction.) Wildeg, Betonstrassen A.G., January 1968. pp. 20. Translated from the German by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 15.

DOMKE, H. and TUSSING, F. Neues Spannbetondurchlaufsystem für Brücken in Bergbaugebieten. (A new system of building continuous prestressed bridges in mining districts.) *Der Bauingenieur*. Vol. 44, No. 3. March 1969. pp. 92-99.

GERWICK, B. C. Construction techniques for prestressed concrete pressure vessels. *Nuclear Engineering and Design*. Vol. 8, No. 4. November/December 1968. pp. 460-466.

GOYAL, S. C. and PRAKASH, S. Prestressed concrete pavements. *The Indian Concrete Journal*. Vol. 42, No. 9. September 1968. pp. 368-371, 376.

HSU, T. T. C. and HANSON, N. W. An investigation of rail-to-concrete fasteners. *Journal of the PCA Research and Development Laboratories*. Vol. 10, No. 3. September 1968. pp. 14-35.

LEE, R. Concrete slabs, 6 & 12 ft, removed by loader to cut road patching time. *Construction Methods*. Vol. 50, No. 12. December 1968. pp. 100-101.

LEYDER, J. P. Machine for forming transverse grooves and spraying curing compounds on fresh concrete. *La Technique Routière*. Vol. 13, No. 1. 1968. Translated from the French by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 17.

PRAGER, E. and COMODZINSKI, V. Construction of power station main buildings with sliding framework. *Energetica*. Vol. 16, No. 12. 1967. pp. 567-573. Translated from the Rumanian by CEBG Information Services. London, 1968. pp. 12. C.E. Translation No. 4705.

SHERWOOD, P. T. and POCOCK, R. G. The utilisation of cement-stabilised waste materials in road construction. *Roads and Road Construction*. Vol. 47, No. 554. February 1969. pp. 43-50.

SMET, U. and CAMPUS, P. Une raffinerie flottante construite sur un pontoon en béton précontraint. (A floating refinery built on a prestressed concrete pontoon.) *Bulletin Technique du Bureau Veritas*. September 1963. pp. 158-167. Translated from the French by C. V. Amerongen. London, Cement and Concrete Association, 1968. pp. 23.

DESIGN

ABDEL-SAMAD, S. R., WRIGHT, R. and ROBINSON, A. R. Analysis of box girders with diaphragms. *Proceedings of the American Society of Civil Engineers*. Vol. 94, No. ST10. October 1968. pp. 2231-2256.

ABELES, P. W. The limit states of design in reinforced and prestressed concrete. *The Consulting Engineer*. Vol. 32, No. 6. June 1968. pp. 57-65.

ACI-ASCE COMMITTEE 428. Progress report on code clauses for 'Limit design'. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 9. September 1968. pp. 713-720.

ACI COMMITTEE 307. Proposed revision of ACI 505-54: Specification for the design and construction of reinforced concrete chimneys. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 9. September 1968. pp. 689-712.

AGARWAL, S. K. A study of Moiré fringes for the determination of moments in plates. *Cement and Concrete (India)*. Vol. 9, No. 2. July/September 1968. pp. 172-182.

AMERICAN CONCRETE INSTITUTE COMMITTEE 313. Bin wall design and construction. *Journal of the American Concrete Institute. Proceedings* Vol. 65, No. 7. July 1968. pp. 499-506.
