

Papers and books on cement and concrete

received in the C&CA Library JANUARY-MARCH 1970*

MATERIALS

Cement

MANUFACTURE

DANYUSHEVSKII, S. I. What is the optimum chemical composition of raw blends? *Tsement*. No. 1. 1969. p. 23. Translated from the Russian. Paris, Cembureau 1969. pp. 6.

FUNKE, G. Beispiele zur Lärminderung in Zementwerken. (Examples of noise abatement in cement works.) *Zement-Kalk-Gips*. Vol. 22, No. 11. November 1969. pp. 505-512.

LEVINE, S. Roasting aids cement beneficiation. *Rock Products*. Vol. 73, No. 2. February 1970. pp. 46-52.

YOUNG, M. K. Epoxy resin speeds kiln lining. *Rock Products*. Vol. 72, No. 12. December 1969. pp. 70-71, 98-99.

PROPERTIES

BRANISKI, A. Grundlegende Unterschiede zwischen Calcium-, Strontium- und Bariumzementen. (Fundamental differences between calcium, strontium and barium cements.) *Zement-Kalk-Gips*. Vol. 22, No. 11. November 1969. pp. 513-516.

PEPPER, L. *X-ray emission analysis of Portland cement. Report 1. Variances in analysis*. Vicksburg, U.S. Army Engineer Waterways Experiment Station, 1968. pp. ix, 28. Miscellaneous paper C-68-2.

REHSI, S. S. and MAJUMDAR, A. J. High magnesia portland cements: study of cement prepared with commercial raw materials. Reprinted from *The Indian Concrete Journal*, June 1969, pp. 221-226. Garston, Building Research Station, 1969. pp. 8. Current paper 39/69.

RICHARTZ, W. Steigerung der Zementsteinfestigkeit durch 'Magnetisieren' und elektrischen Funkendurchschlag. (The increase in the strength of hardened cement paste through 'magnetizing' and electric spark breakdown.) *Beton*. Vol. 11, No. 19. November 1969. pp. 503-506.

Aggregates

ANON. Dworshak dam: advanced systems for producing aggregates and placing concrete. *Civil Engineering* (ASCE). Vol. 39, No. 3. March 1969. pp. 35-38.

ANON. Method of test for cleanness of coarse aggregate. *N.Z. Concrete Construction*. Vol. 13, No. 10. October 1969. pp. 166-167.

ANON. Method of test for sand equivalent. *N.Z. Concrete Construction*. Vol. 13, No. 9. September 1969. pp. 150-151.

ANON. Method of test for weathering resistance of aggregates. *N.Z. Concrete Construction*. Vol. 13, No. 11. November 1969. pp. 186-187.

CHAPMAN, G. P. and ROEDER, A. R. *Properties of concretes made with aggregates containing sea-shells*. London, Sand and Gravel Association of Great Britain, 1969. pp. 34. SR 6901.

HAMILTON, G. S. A. Sampling concrete aggregates for source evaluation and acceptance purposes. *N.Z. Concrete Construction*. Vol. 13, No. 6. June 1969. pp. 95-97. No. 9. September 1969. pp. 146-149. No. 11. November 1969. pp. 182-185.

LARSON, T. D. and CADY, P. D. *Identification of frost susceptible particles in concrete aggregates*. Washington, D.C., Highway Research Board, 1969. pp. viii, 62. National Co-operative Highway Research Program Report 66.

MOSS, P. J. Lightweight aggregate concretes and their use in New Zealand. *N.Z. Concrete Construction*. Vol. 14, No. 1. January 1970. pp. 13-14.

WALKER, R. D. *One-cycle slow-freeze test for evaluating aggregate performance in frozen concrete*. Washington, D.C., Highway Research Board, 1969. pp. viii, 21. National Co-operative Highway Research Program Report 65.

Reinforcement

BERNHARDT, C. J. An experimental study of corrosion of reinforcement in concrete in seawater environment. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 37-40.

COSTES, D. Sureté des réacteurs nucléaires. (Safety of nuclear reactors.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255-256. March-April 1969. pp. 576-579.

COX, F. B. and GEYMAYER, H. G. *Expedient reinforcement for concrete for use in southeast Asia. Report 1. Preliminary tests of bamboo*. Vicksburg, U.S. Army Engineer Waterways Experiment Station, 1969. pp. xiii, 132. Technical Report C-69-3.

DUMAS, F. La relaxation des aciers de précontrainte. (The relaxation of prestressing steels.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255-256. March-April 1969. pp. 594-607.

EIKLID, G.-E., GERSTLE, K. H. and TULIN, L. G. Strain-hardening effects in reinforced concrete. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 211-220.

FRANZ, G. and BRENNER, H. *Verformungsversuche an Stahlbetonbalken mit hochfestem Bewehrungsstahl*. (Deformation tests in reinforced concrete beams with high-tensile reinforcing steel.) Berlin, Verlag von Wilhelm Ernst und Sohn, 1967. pp. 85. Deutscher Ausschuss für Stahlbeton. Heft 188.

* For the benefit of readers who wish to index these references, separate unbacked copies of this section of the *Magazine* may be obtained free of charge from the Editor.

HOFSØY, A. Crack widths in concrete beams with bundled reinforcement. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 7–9.

LENSCHOW, R. J. Effectiveness of reinforcing bars inclined to the cracks in a concrete slab. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 10–13.

MCDONALD, J. E. *The effect of confining reinforcement on the ductility of reinforced concrete beams*. Vicksburg, U.S. Army Engineer Waterways Experiment Station, 1969. pp. xii, 42, (102). Technical report C-69-5.

RICHELLE, P. Pertes de tension par frottement des fils et câbles de précontraint. (Stress losses due to friction of prestressing wires and cables.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255–256. March–April 1969. pp. 587–594.

VIGERUST, G. and LARSEN, P. KR. Steel stresses in prestressed concrete after initial cracking. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 21–23.

Admixtures

ANON. Water reducing admixtures at work in the field. *Concrete Products* (U.S.A.). Vol. 72, No. 4. April 1969. pp. 62–66.

ARMAN, A. and DANTIN, T. J. The effect of admixtures on layered systems constructed with soil cement. *Highway Research Record*. No. 263. 1969. pp. 69–80.

BESSER, R. YA. Using sodium nitrite as an admixture for concrete products in winter. *Beton i Zhelezobeton*. Vol. 15, No. 12. 1969. pp. 19–21. (In Russian.)

LAGOIDA, A. V. and UKHOV, E. N. On the temperature ranges for using freezing point depressant additives in concrete. *Beton i Zhelezobeton*. Vol. 15, No. 12. 1969. pp. 9–12. (In Russian.)

RICHARTZ, W. Die Bindung von Chloride bei der Zement erhärtung. (The combining of chloride in the hardening of cement.) *Zement-Kalk-Gips*. Vol. 22, No. 10. October 1969. pp. 447–456.

CONCRETE

Mix design and quality control

ACI COMMITTEE 211. Recommended practice for selecting proportions for normal weight concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 66, No. 8. August 1969. pp. 612–628.

ANON. New laboratory at K. Douglas Ltd, Otaki. *N.Z. Concrete Construction*. Vol. 13, No. 5. May 1969. p. 83.

ANON. Pour la première fois la marque Benor est octroyée à des produits en béton. (Benor mark granted to concrete products for the first time.) *Beton*. No. 3. December 1969. pp. 14–18.

HALSTEAD, P. E. The significance of concrete cube tests. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 187–194.

SETTIPANI, A. Examen gammagraphique du béton précontraint. (Examination of prestressed concrete by gamma radiography. *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255–256. March–April 1969. pp. 637–638.

Properties

ANON. Control of cracking in concrete. *Australian Civil Engineering*. Vol. 10, No. 8. August 1969. pp. 40–43.

AXON, E. O., MURRAY, L. T. and RUCKER, R. M. A study of deterioration of concrete bridge decks. *Highway Research Record*. No. 268. pp. 80–89.

BALDWIN, R. and NORTH, M. A. *Stress-strain curves of concrete at high temperature—a review*. Boreham Wood, Fire Research Station, 1969. pp. 5, 6. F.R. Note No. 785.

BARES, R. Über Elastizität und Festigkeit von Kunststoffbetonen. (Concerning the elasticity and strength of resin concretes.) *Zement-Kalk-Gips*. Vol. 22, No. 10. October 1969. pp. 462–470.

BAUS, R. and BRENNEISEN, A. Résistance limites admissibles des bétons utilisés dans les constructions précontraintes. (Permissible limit strengths of the concretes used in prestressed structures.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255–256. March–April 1969. pp. 619–636.

BRENNEISEN, K. Résultats d'essais sur des coulis d'injection à base de ciment. (Results of tests on cement-based grouts.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255–256. March–April 1969. pp. 522–530.

DUBROVSKII, V. B., KORENEVSKII, V. V. and PERGAMENSHCHIK, B. K. Effect of irradiation of the properties of concrete. *Beton i Zhelezobeton*. Vol. 15, No. 5. 1969. pp. 33–34. (In Russian.)

GONCHAROV, A. A. and GLADKOV, V. S. Effect of compressive stresses on the frost resistance of concrete. *Beton i Zhelezobeton*. Vol. 15, No. 5. 1969. pp. 37–39. (In Russian.)

JORDAAN, I. J. and ILLSTON, J. M. The creep of sealed concrete under multiaxial compressive stresses. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 195–204.

KLIEGER, P. and LANDGREN, R. Performance of concrete slabs in outdoor exposure. *Highway Research Record*. No. 268. 1969. pp. 62–79.

MULLICK, A. K., MILLS, R. H. and NEVILLE, A. M. Creep of concrete with varying proportions of unhydrated cement. *Highway Research Record*. No. 268. pp. 90–98.

MEYER, A., WIERIG, H. J. and HUSMANN, K. *Karbonatisierung von Schwerbeton*. (The carbonation of heavy concrete.) Berlin. Verlag von Wilhelm Ernst und Sohn, 1967. pp. 34. Deutscher Ausschuss für Stahlbeton. Heft 182.

POTOCKI, F. P. *Measurement of long term strain in full-scale experimental concrete slabs*. Crowthorne, Road Research Laboratory, 1969. pp. 19. RRL Report LR 259.

RAJU, N. K. Deformation characteristics of concrete under repeated compressive loads. *Building Science*. Vol. 4. No. 3. December 1969. pp. 151–157.

RÜSCH, H. et al. *Festigkeit und Verformung von unbewehrtem Beton unter konstanter Dauerlast. Versuchsergebnisse für zentrische und exzentrische Belastung*. (Strength and deformation of plain concrete under constant sustained load. Results of tests for concentric and eccentric loading.) Berlin, Verlag von Wilhelm Ernst und Sohn, 1968. pp. iv, 86. Deutscher Ausschuss für Stahlbeton. Heft 198.

SCHRODER, F. *Einfluss von Luftkohlenstaub und Feuchtigkeit auf die Beschaffenheit des Betons als Korrosionsschutz für Stahleinlagen*. (The effect of carbon dioxide in the air and humidity on the condition of the concrete as corrosion protection of the reinforcing steel.) Berlin, Verlag von Wilhelm Ernst und Sohn, 1967. pp. 31. Deutscher Ausschuss für Stahlbeton. Heft 182.

SELMA, L. G. Creep cracking and shrinkage in concrete frame structures. *Proceedings of the American Society of Civil Engineers*. Vol. 95, No. ST12. December 1969. pp. 2743–2761.

STURRUP, V. R. and CLENDENNING, T. G. The evaluation of concrete by outdoor exposure. *Highway Research Record*. No. 268. 1969. pp. 48–61.

WARD, M. A., NEVILLE, A. M. and SINGH, S. P. Creep of air-entrained concrete. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 205–210.

Curing

ACI COMMITTEE 517. Recommended practice for atmospheric pressure steam curing of concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 66, No. 8. August 1969. pp. 629–646.

DERRINGTON, C. F. *Investigation of colorless and water-based concrete curing compounds*. Vicksburg, U.S. Army Engineer Waterways Experiment Station, 1969. pp. 64. Technical Report C-69-7.

RYABOV, R. P. Heating concrete mixes when making products by the method of hot casting. *Beton i Zhelezobeton*. Vol. 15, No. 8. 1969. pp. 44-45. (In Russian.)

SOVALOV, I. G. and TVOROGOV, A. I. Impulse electric heating of concrete. *Beton i Zhelezobeton*. Vol. 15, No. 12. 1969. pp. 23-25. (In Russian.)

STEWART, P. D. and SHAFFER, R. K. Investigation of concrete protective sealants and curing compounds. *Highway Research Record*. No. 268. 1969. pp. 1-16.

TESTING

General

AXON, E. O., MURRAY, L. T. and RUCKER, R. M. A study of deterioration of concrete bridge decks. *Highway Research Record*. No. 268. 1969. pp. 80-89.

JORDAAN, I. J. and ILLSTON, J. M. The creep of sealed concrete under multiaxial compressive stresses. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 195-204.

KLIEGER, P. and LANDGREN, R. Performance of concrete slabs in outdoor exposure. *Highway Research Record*. No. 268. 1969. pp. 62-79.

LEHMANN, V. H., MATHIAK, H. and KURPIERS, P. Ein Beitrag zur Klärung messtechnischer Probleme an Rohstoffen und Dehydrationsprodukten der Gipsindustrie. (A contribution to clarify the problem of the measurement of raw materials and dehydration products in the gypsum industry.) *Tonindustrie Zeitung*. Vol. 94, No. 1. January 1970. pp. 2-6.

LEHMANN, V. H., MATHIAK, H. and KURPIERS, P. Über die Messung der Verarbeitbarkeit von Gipsmörteln. (The measurement of the workability of plaster.) *Tonindustrie Zeitung*. Vol. 94, No. 1. January 1970. pp. 6-14.

LEHMANN, V. H., MATHIAK, H. and KURPIERS, P. Zur Probenahme und Probenvorbereitung in der Gipsindustrie. (On sampling and sample preparation in the gypsum industry.) *Tonindustrie Zeitung*. Vol. 94, No. 1. January 1970. pp. 14-19.

STURRUP, V. R. and CLENDENNING, T. G. The evaluation of concrete by outdoor exposure. *Highway Research Record*. No. 268. 1969. pp. 48-61.

WALKER, R. D. *One-cycle slow-freeze test for evaluating aggregate performance in frozen concrete*. Washington, D.C., Highway Research Board, 1969. pp. viii, 21. National Co-operative Highway Research Program Report 65.

Methods

AKHVERDOV, I. N., DZENIS, V. V. and PIMENOV, V. V. Studying the formation of the structure of concrete ultrasonically. *Beton i Zhelezobeton*. Vol. 15, No. 7. 1969. pp. 21-25. (In Russian.)

ANON. Method of test for cleanness of coarse aggregate. *N.Z. Concrete Construction*. Vol. 13, No. 10. October 1969. pp. 166-167.

ANON. Method of test for sand equivalent. *N.Z. Concrete Construction*. Vol. 13, No. 9. September 1969. pp. 150-151.

ANON. Method of test for weathering resistance of aggregates. *N.Z. Concrete Construction*. Vol. 13, No. 11. November 1969. pp. 186-187.

BUCK, A. D. and MATHER, K. *Concrete cores from dry dock No. 2 Charleston naval shipyard*, S.C. Vicksburg, U.S. Army Engineer Waterways Experiment Station, 1969. pp. 72. Miscellaneous Paper C-69-6.

BUØ, F. O. Indicator for internal crack formation in concrete. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 23-25.

CORNELIUS, D. F., FRANKLIN, R. E. and KING, T. M. J. *The effect of test method on the indirect tensile strength of concrete*. Crowthorne, Road Research Laboratory, 1969. pp. 26. RRL Report LR 260.

DZENIS, V. V. and SERGEEV, O. E. Using longitudinal and transverse ultrasonic oscillations for controlling the mechanical properties of concrete. *Beton i Zhelezobeton*. Vol. 15, No. 7. 1969. pp. 25-26. (In Russian.)

ELVERY, R. H. and DIN, N. M. *An assessment of ultrasonic testing or reinforced concrete beams*. London, Construction Industry Research and Information Association, 1969. pp. 28. Technical Note 4.

HALSTEAD, P. E. The significance of concrete cube tests. *Magazine of Concrete Research*. Vol. 21, No. 69. December 1969. pp. 187-194.

HUANG, R. J. W. and RODERICK, G. L. Cement content of soil-cement by X-ray fluorescence. *Highway Research Record*. No. 263. 1969. pp. 60-68.

JOHANSEN, R. Characterisation of the air-void system in fresh concrete by a vibration test. *70th Anniversary Issue of Professor Lyse*. Trondheim, Cement and Concrete Research Institute at the Technical University of Norway, October 1968. Betongtekniske Publikasjoner. Edition No. 10. pp. 42-45.

LESHCHINSKII, M. YU., BLASENKO, V. I. and NADGORNAYA, S. SH. Pull-off testing of concrete for strength. *Beton i Zhelezobeton*. Vol. 15, No. 8. 1969. pp. 31-32.

MALHOTRA, V. M. The past, present and future of accelerated strength testing of concrete. *The Indian Concrete Journal*. Vol. 43, No. 9. September 1969. pp. 342-349.

SETTIPANI, A. Examen gammagraphique du béton précontraint. (Examination of prestressed concrete by gamma radiography.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 22, No. 255-256. March-April 1969. pp. 637-638.

TEUBERT, G. J. Ermittlung eines zementabhängigen Grenzwasserzementwertes als Kenngröße für Sichtbeton. (Determination of water/cement ratio as a function of cement, as an index for exposed concrete.) *Betonstein Zeitung*. Vol. 35, No. 11. November 1969. pp. 654-659.

Models

STACHIW, J. D. Concrete deep submergence hollow shell structures. *Proceedings of the American Society of Civil Engineers*. Vol. 95, No. ST12. December 1969. pp. 2931-2954.

Structural

ABELES, P. W. *Preliminary investigations into cracking in rectangular prestressed concrete beams*. London, Construction Industry Research and Information Association, 1969. pp. 18. Technical Note 7.

ALBRITTON, G. E. Deep slabs subjected to static and blast loading. *Proceedings of the American Society of Civil Engineers*. Vol. 95, No. ST11. November 1969. pp. 2449-2462.

ANON. The crack resistance of prestressed beam webs subject to a lateral force under a pulsating load. *Beton i Zhelezobeton*. Vol. 15, No. 5. 1969. pp. 21-24. (In Russian.)

HAYES, B. and TAYLOR, R. Load-testing RC slabs. *The Consulting Engineer*. Vol. 33, No. 11. November 1969. pp. 46-47.

KNOWLES, R. B. and PARK, R. Strength of concrete filled steel tubular columns. *Proceedings of the American Society of Civil Engineers*. Vol. 95, No. ST12. December 1969. pp. 2565-2587.

ZELGER, C. *Die Tragfähigkeit von Decken aus Glasstahlbeton*. (The load-bearing capacity of floors in reinforced concrete with glass tile fillers.) Berlin, Verlag von Wilhelm Ernst und Sohn, 1967. pp. 53. Deutscher Ausschuss für Stahlbeton. Heft 189.

CONSTRUCTIONAL TECHNIQUES

ACI COMMITTEE 302. Recommended practice for concrete floor and slab construction. *Journal of the American Concrete Institute*. *Proceedings* Vol. 66, No. 8. August 1969. p. 609.

AMERICAN CONCRETE INSTITUTE. *Recommended practice for concrete floor and slab construction*. Detroit, American Concrete Institute 1969. pp. 34. Standard 302-69.

- ANON. Concrete crossties cushion Chicago transit commuters. *Concrete Products* (U.S.A.). Vol. 72, No. 4. April 1969. pp. 56-60.
- ANON. Due ponti sulla Senna nei pressi di Parigi, a conci prefabbricati in cemento armato precompresso. (Two bridges on the Seine near Paris, with prestressed precast sections.) *L'Industria Italiana del Cemento*. Vol. 39, No. 10. October 1969. pp. 741-750.
- ANON. Europe's highest precast chimney up in seven weeks. *Contract Journal*. Vol. 231, No. 4706. September 1969. p. 21.
- ANON. Hammering texture into concrete. *Concrete Construction*. Vol. 14, No. 9. September 1969. p. 342.
- ANON. Hinged precast panels fold out to make boxes for a high-rise apartment structure. *Architectural Record*. Vol. 146, No. 4. October 1969. pp. 172.
- ANON. Kontinuierlich armierte fugenlose Betonbeläge in der Schweiz. (Continuously reinforced jointless concrete pavements in Switzerland.) *Betonstrassen*. No. 78/79/80. January/April/July 1969. pp. 1-12.
- ANON. Mix design hints for architectural concrete. *Concrete Construction*. Vol. 14, No. 8. August 1969. pp. 309-313.
