

Papers and books on cement and concrete

received in the C&CA Library SEPTEMBER-DECEMBER 1971

MATERIALS

Cement

MANUFACTURE

- ANON. New computer controlled cement kiln: latest plant at Gullhogens cement works in Sweden. *Cement, Lime and Gravel*. Vol. 46, No. 7. July 1971. pp. 165-169.
- ANON. The analysis of rotary and shaft kiln waste gases by control instrumentation. *Cement Technology*. Vol. 2, No. 5. September/October 1971. pp. 135-141. No. 6. November/December 1971. pp. 193-194, 196-197.
- ANON. The bulk handling system at Northfleet cement works. *Cement Technology*. Vol. 2, No. 4. July/August 1971. pp. 117-119.
- AUSTIN, L. G. Residence time distributions in mills. *Cement and Concrete Research*. Vol. 1, No. 3. May 1971. pp. 241-256.
- BROWN, W. J. The insulation of a rotary kiln. *Cement Technology*. Vol. 2, No. 5. September/October 1971. pp. 159-162.
- CAHN, D. S. Agglomeration of steel plant furnace dust. *Cement Technology*. Vol. 2, No. 1. January/February 1971. pp. 15-17, 20-24.
- DAVIES, P. Gas cleaning in the cement industry. *Cement Technology*. Vol. 2, No. 6. pp. 175-176.
- DROSHN, U. Das neue Klinkerwerk im Werk Amoneburg. (The new clinker plant at the Amoneburg Works.) *Zement-Kalk-Gips*. Vol. 23, No. 10. October 1970. pp. 449-461.
- GUTT, W. and SMITH, M. A. Calcium fluoride as a mineralizer. *Cement Technology*. Vol. 2, No. 1. January/February 1971. pp. 9-14.
- GUTT, W. and SMITH, M. A. Studies of sulphates in Portland cement clinker. *Cement Technology*. Vol. 2, No. 5. September/October 1971. pp. 143-147, 150-154, 156-157.
- MIDGLEY, H. G. Compound calculation of the phases in Portland cement clinker—2. *Cement Technology*. Vol. 2, No. 4. July/August 1971. pp. 113-116.
- SMITH, M. A. and GUTT, W. Studies of the mechanism of the combined cement/sulphuric acid process. *Cement Technology*. Vol. 2, No. 6. November/December 1971. pp. 167-169, 171-173.
- V'LKOV, V. and TABAKOVA, N. The effect of P_2O_5 on clinker formation and the quality of cement. *Building Materials and the Silicate Industry*. Vol. 8, No. 9. 1967. pp. 6-10. Translated from the Bulgarian by D. R. GRAY. Garston, Building Research Station, 1971. pp. 6. Library Communication 1602.

PROPERTIES

- ALLEN, H. G. Tensile properties of seven asbestos cements. *Composites*. Vol. 2, No. 2. June 1971. pp. 98-103.
- CHATTERJI, S. and JEFFERY, J. W. Further studies of the three-dimensional arrangement of the hydration products of Portland cements. *The Indian Concrete Journal*. Vol. 45, No. 4. April 1971. pp. 167-172.
- CHROMY, S. Zur Umwandlung der Modifikationen beta-gamma des Dicalciumsilikats. (Inversions of the β - γ modifications of dicalcium silicate.) *Zement-Kalk-Gips*. Vol. 23, No. 8. 1970. pp. 382-389. Translated from the German. Garston, Building Research Station, 1970. pp. 7. Library Communication 1596.
- COTTIN, B. Cinétique d'hydratation des ciments alumineux en CAH_{10} et C_2AH_8 étude en microscopie électronique. (Study of the kinetics of hydration of high alumina cement by electron microscopy.) *Cement and Concrete Research*. Vol. 1, No. 3. May 1971. pp. 273-284.
- DIAMOND, S. and DOLCH, W. L. *Generalised log-normal distribution of pore sizes in hydrated cement paste*. La Fayette, Ind., Purdue University, 1971. pp. 21. JHRP Technical Paper No. 4.
- FELDMAN, R. F. The flow of helium into interlayer spaces of hydrated Portland cement paste. *Cement and Concrete Research*. Vol. 1, No. 3. May 1971. pp. 285-300.
- HOLZAPFEL, F. *Das Verhalten von Zementstein unter dynamischer Beanspruchung*. (The behaviour of hardened cement paste under dynamic loading.) Aachen, Technische Universität Aachen, 1970. pp. 107 + 115.
- HUSSEIN, A. T. Infrared spectra studies of the $CaO-SiO_2-H_2O$ system with a low CaO to SiO_2 ratio. *Cement Technology*. Vol. 2, No. 2. March/April 1971. pp. 59-63.
- MEHTA, P. K. and LESNIKOFF, G. Conversion of $CaO \cdot Al_2O_3 \cdot 10H_2O$ to $3CaO \cdot Al_2O_3 \cdot 6H_2O$. *Journal of the American Chemical Society*. Vol. 54, No. 4. 1971. pp. 210-212.
- PREVITE, R. W. Some insights on the mechanism of saccharide set retardation of Portland cement. *Cement and Concrete Research*. Vol. 1, No. 3. May 1971. pp. 301-316.
- RAMACHANDRAN, V. S. and FELDMAN, R. F. Adsorption of calcium lignosulfonate on tricalcium aluminate and its hydrates in non-aqueous medium. *Cement Technology*. Vol. 2, No. 4. July/August 1971. pp. 121-129.
- ROMBERG, H. Einfluss der Zementart auf die Porengrößenverteilung im Zementstein. (Influence of the types of cement on the pore size distribution in hardened cement pastes.) *Tonindustrie Zeitung*. Vol. 95, No. 4. April 1971. pp. 105-115.
- TABIKH, A. A. and WEHT, R. J. An X-ray diffraction analysis of Portland cement. *Cement and Concrete Research*. Vol. 1, No. 3. May 1971. pp. 317-328.

*For the benefit of readers who wish to index these references, separate unbacked copies of this section of the *Magazine* may be obtained free of charge from the Editor.

Aggregates

- HUGHES, B. P. *Absorption of concrete aggregates*. Birmingham, The University, 1970. pp. 15. Research Report RR/C8.
- MEAD, H. T. Mobile and portable aggregate production plants. *World Construction*. Vol. 24, No. 6. June 1971. pp. 23–25.
- O'BRIEN, J. *The abrasion resistance of concrete floors with specific reference to aggregate type*. Sydney, Cement and Concrete Association of Australia, 1971. pp. 4. Technical Memorandum No. 24.

Reinforcement

- ANON. Essais et spécifications pour les armatures de béton armé et de béton précontraint. (Tests and specifications of reinforcements for reinforced and prestressed concrete.) *Materials and Structures: Research and Testing*. Vol. 3, No. 15. May/June 1971. pp. 147–178.
- ANON. Prospects for fibre reinforced concrete. *Precast Concrete*. Vol. 2, No. 12. December 1971. pp. 709–711.
- ANON. Wire-reinforced precast concrete decking panels. *Precast Concrete*. Vol. 2, No. 12. December 1971. pp. 703–708.
- BUILDING RESEARCH STATION. *Corrosion of steel in reinforced and prestressed concrete*. Garston, 1971. pp. 34. Library Bibliography 246.
- DIXON, J. Concrete reinforced with fibrous wire. *Concrete*. Vol. 5, No. 3. March 1971. pp. 73–76.
- MUSPRATT, M. A. Relaxation tests on alloy steel bars. *Proceedings of the American Society of Civil Engineers*. Vol. 97, No. ST5. May 1971. pp. 1533–1559.
- SRINIVASA RAO, P. and SUBRAHMANYAM, B. V. Cracking and ultimate strength of one-way slabs reinforced with welded wire fabric. *The Indian Concrete Journal*. Vol. 45, No. 3. March 1971. pp. 115–121, 139.
- THOMAS, J. A. G. Glass-fibre-reinforced cement. *Composites*. Vol. 2, No. 2. June 1971. pp. 95–97.

Admixtures

- BRUERE, G. M. Air-entraining actions of anionic surfactants in Portland cement pastes. *Journal of Applied Chemistry and Biotechnology*. Vol. 21. March 1971. pp. 61–64.
- FLETCHER, K. E. and ROBERTS, M. H. Effect of a polyethylene oxide admixture on the strength of concrete. *Concrete*. Vol. 5, No. 10. October 1971. pp. 321–322.
- HIGHWAY RESEARCH BOARD: DIVISION OF ENGINEERING. *Admixtures in concrete: accelerators, air entrainers, water reducers, retarders, pozzolans*. Washington, D.C., 1971. pp. 32. Special Report 119.
- HOPE, B. B. and MANNING, D. G. Creep of concrete influenced by accelerators. *Journal of the American Concrete Institute. Proceedings*. Vol. 68, No. 5. May 1971. pp. 361–365.

Formwork

- CONCRETE SOCIETY, THE and INSTITUTION OF STRUCTURAL ENGINEERS, THE. *Falsework. Report of the Joint Committee*. London, 1971. pp. 55. Technical Report TRCS 4. Publication 52.020.
- RICHARDSON, J. G. Concrete as a mould material. *Precast Concrete*. Vol. 2, No. 10. October 1971. pp. 587–592.

CONCRETE

Mix design and quality control

- AMERICAN CONCRETE INSTITUTE COMMITTEE 301. Specifications for structural concrete for buildings. *Journal of the American Concrete Institute. Proceedings*. Vol. 68, No. 6. June 1971. pp. 413–450.
- ANON. Protecting concrete quality by gamma-ray backscattering. *Public Roads*. Vol. 36, No. 9. August 1971. pp. 180–183.
- CONCRETE PLANT MANUFACTURERS BUREAU. *Recommended guide specifications for batching equipment and control systems in concrete batch plants*. Silver Spring, Ma., 1971. pp. 11. Publication No. 102.

- HOBBS, C. Tailor-made concretes—scope for immediate development. *Concrete*. Vol. 5, No. 3. March 1971. pp. 77–82.

- NORDISKA BETONGFÖRBUNDETS NORMKOMMITTEE. Preliminära nordiska riktlinjer för normer för monteringsfärdiga element av betong. (Preliminary guide lines for standard specification for precast concrete elements in the Nordic countries.) *Nordisk Betong*. Vol. 15, No. 1. 1971. pp. 5–16.

- SINGH, S. and SOFAT, G. C. The yield of mortar and concrete mixes. *The Indian Concrete Journal*. Vol. 45, No. 5. May 1971. pp. 216–218, 224.

- SMITH, C. A., JR. *Pollution control through waste fines recovery*. Silver Spring, Ma., National Sand and Gravel Association, 1971. pp. 7. Circular No. 110.

- WRIGHT, M. Control of precast production. *Precast Concrete*. Vol. 2, No. 3. March 1971. pp. 173–178.

Properties

- ALEXANDERSON, J. The influence of cement characteristics on the workability of concrete. *Precast Concrete*. Vol. 2, No. 8. August 1971. pp. 465–468.
- ANON. Concrete bleeding: good or bad. *Concrete Construction*. Vol. 16, No. 4. April 1971. pp. 133, 135.
- ANON. Thermal properties of precast concrete. *Journal of the Prestressed Concrete Institute*. Vol. 16, No. 3. May–June 1971. pp. 33–43.
- BARON, J. *Fissuration du béton par hydratation localement différée du ciment: thèse*. (The cracking of concrete as a result of locally delayed hydration of cement: thesis.) Paris, Ministère de l'Équipement et du Logement, 1971. pp. 106. Rapport de recherche No. 15.
- BERGSTRÖM, S. G. and NIELSEN, A. *Beräkning av krypning hos betong*. (The calculation of concrete creep.) Lund, Tekniska Högskolan, Institutionen för Byggnadsteknik, 1969. pp. 7. Särtryck ur Byggmästaren 6.
- BRANSON, D. E. *Loss of prestress, camber, and deflection of non-composite and composite structures using different weight concretes*. Iowa City, University of Iowa, 1970. pp. xxiv, 166. Ap63.
- COOK, D. J. *Factors affecting the tensile creep of concrete*. Kensington, New South Wales University, 1971. pp. 23. Report R-64.
- COWAN, J. and HALDANE, D. Professional opinions on crack widths. *Concrete*. Vol. 5, No. 11. November 1971. pp. 348–350.
- FLAJSMAN, F., CAHN, D. S. and PHILLIPS, J. C. Polymer-impregnated fibre-reinforced mortars. *Journal of the American Ceramic Society*. Vol. 54, No. 3. March 1971. pp. 129–130.
- GJORV, O. E. and SHAH, S. P. *Concrete subjected to environmental fatigue*. Cambridge, Mass., Massachusetts Institute of Technology, 1970. pp. 38. Research report R70-42.
- HIGHWAY RESEARCH BOARD. *Concrete durability, cement paste, aggregates, and sealing compounds: 9 reports*. Washington, D.C., 1970. pp. 117. Highway Research Record No. 328.
- HIGHWAY RESEARCH BOARD. *Environmental effects on concrete: five reports*. Washington, D.C., 1970. pp. 56. Highway Research Record No. 342.
- HOBBS, D. W. The dependence of the bulk modulus, Young's modulus, creep, shrinkage and thermal expansion of concrete upon aggregate volume concentration. *Materials and Structures, Research and Testing*. Vol. 4, No. 20. March/April 1971. pp. 107–113.
- HOBBS, D. W. and MEARS, A. R. The influence of specimen geometry upon weight change and shrinkage of air-dried mortar specimens. *Magazine of Concrete Research*. Vol. 23, No. 75–76. June–September 1971. pp. 89–98.
- HOLMBERG, A. and SIGFRID, N. Varmemotståndet hos vaggar av halrumsbetong med lattballast. (Thermal resistance of no-fines lightweight aggregate concrete walls.) *Nordisk Betong*. Vol. 15, No. 1. 1971. pp. 43–52.
- HONEYBORNE, D. B. *Changes in the appearance of concrete on exposure*. Garston, Building Research Station, 1971. pp. 8. Digest 126.

HUGHES, B. P. *The effect of water gain on concrete*. Birmingham, The University, 1971. pp. 16. Research Report RR/C9.

HUSAK, A. D. and KROKOSKY, E. M. Static fatigue of hydrated cement concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 4. April 1971. pp. 263-271.

INDERWICK, A. F. The freeze-thaw durability of pressed slabs under severe conditions. *Precast Concrete*. Vol. 2, No. 9. September 1971. pp. 537-541. 544-546.

JONIS, P. J. and ERIKSSON, T. Ytjamnhet och matnoggrannhet hos platsgjunta betongkonstruktioner samt ytjamnhet hos monterade betongelement. (Surface smoothness and dimensional accuracy of cast-in-situ concrete structures, and surface smoothness of precast concrete elements.) *Nordisk Betong*. Vol. 15, No. 1. 1971. pp. 53-79.

JORDAAN, I. J. and ILLSTON, J. M. Time-dependent strains in sealed concrete under systems of variable multiaxial stress. *Magazine of Concrete Research*. Vol. 23, No. 75-76. June-September 1971. pp. 79-88.

KEEN, R. *Controlling algae and other growths on concrete*. London, Cement and Concrete Association, 1971. pp. 6. Advisory Note 45.020.

KLIEGER, P. *Shrinkage-compensated concrete: a review of current technology*. Silver Spring, Md., National Ready Mixed Concrete Association, 1971. pp. 18. Publication No. 134.

KOLLEK, J. J. Ultra-rapid hardening cement concrete. *Precast Concrete*. Vol. 2, No. 4. April 1971. pp. 223-230.

LEVITT, M., LEACH, C. H. C. and WILLIAMSON, J. J. Factors affecting the sound insulation of lightweight aggregate concrete block walls. *Precast Concrete*. Vol. 2, No. 3. March 1971. pp. 161-169.

NEVILLE, A. M. From discrete materials: a concrete product. *Concrete*. Vol. 5, No. 8. August 1971. pp. 243-248.

NILSSON, C. Mekanisk inverkan av vatten på betong vid hogtrycksrengöring. (Mechanical effect of water on concrete at jet cleaning.) *Cement och Betong*. Vol. 46, No. 3. 1971. pp. 383-391.

O'BRIEN, J. *The abrasion resistance of concrete floors with specific reference to aggregate type*. Sydney, Cement and Concrete Association of Australia, 1971. pp. 4. Technical Memorandum No. 24.

ODELLO, R. J. and ALLGOOD, J. R. *Economics of shallow concrete shells*. Port Hueneme, U.S. Naval Civil Engineering Laboratory, 1971. pp. 30. Technical Report R714.

ODORISIO, C. Misure di ritiro in calcestruzzi leggeri: confronto con il calcestruzzo normale per l'applicazione in strutture portanti prefabricate. (Shrinkage measurement in lightweight concrete: comparison with normal concrete for application in precast load-bearing structures.) *L'Industria Italiana del Cemento*. Vol. 41, No. 4. April 1971. pp. 287-294.

SARGIN, M., GHOSH, S. K. and HANDA, V. K. Effects of lateral reinforcement upon the strength and deformation properties of concrete. *Magazine of Concrete Research*. Vol. 23, No. 75-76. June-September 1971. pp. 99-110.

SPOONER, D. C. Stress-strain-time relationships for concrete. *Magazine of Concrete Research*. Vol. 23, No. 75-76. June-September 1971. pp. 127-131.

UZOMAKA, O. J. Some shear strength parameters of plastic concrete. *Magazine of Concrete Research*. Vol. 23, No. 75-76. June-September 1971. pp. 119-126.

WALKUS, R. and KOWALSKI, T. G. Ferrocement: a survey. *Concrete*. Vol. 5, No. 2. February 1971. pp. 48-52.

Curing

FRENCH, P. J. High concrete strength within the hour. *Concrete*. Vol. 5, No. 8. August 1971. pp. 253-258.

KIRKBRIDE, T. W. Burner curing. *Precast Concrete*. Vol. 2, No. 1. November 1971. pp. 644-646.

O'BRIEN, J. B. *Evaluation of membrane curing compounds*. Sydney, Cement and Concrete Association of Australia, 1970. pp. 16.

Jointing

AMERICAN CONCRETE INSTITUTE COMMITTEE 308. Recommended practice for curing concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 4. April 1971. pp. 233-243.

DERBEZ, F. M. and MARTIN, J. M. R. *Conexiones entre elementos horizontales y verticales en estructuras prefabricadas de concreto*. (Connections of horizontal and vertical elements in precast concrete structures.) Mexico, Instituto Mexicano del Cemento y del Concreto, 1971. pp. 22. Special Publication No. 21.

MAYFIELD, B. Corner joint details in structural lightweight concrete. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 5. May 1971. pp. 366-372.

MEIKLE, T. A. V. Types and performance of sealing compounds. *Building Technology and Management*. Vol. 9, No. 7. July 1971. pp. 8-9, 18-19.

MENZIES, J. B. CP 117 and shear connectors in steel-concrete composite beams made with normal density lightweight concrete. Reprinted from: *The Structural Engineer*. Vol. 49, No. 3. March 1971. pp. 137-153. Garston, Building Research Station, 1971. pp. 17. CP 22/71.

RUDOLPH, C. L. Risse in einem Gewölbe infolge Untergrundbewegung und deren Sanierung mittels Kunstharzinjektionen. (Cracks in the arched roof of a highway underpass due to subsoil movements and the repair thereof by means of synthetic resin injections.) *Der Bauingenieur*. Vol. 46, No. 2. February 1971. pp. 45-49.

WOOLMAN, R. Sealant technology in cladding modern buildings. *Building Technology and Management*. Vol. 9, No. 7. July 1971. pp. 5-7.

TESTING

General

ABDUL RAHMAN, P. M. An investigation of the cracking behaviour of beams reinforced with ribbed-torsteel bars. *The Indian Concrete Journal*. Vol. 45, No. 3. March 1971. pp. 104-114.

AWAD, M. E. and HILSDORF, H. K. *Strength and deformation characteristics of plain concrete subjected to high repeated and sustained loads*. Urbana, University of Illinois, 1971. pp. 266. Civil Engineering Studies, Structural Research Series No. 372.

BROWN, R. H. and JIRSA, J. O. Reinforced concrete beams under load reversals. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 5. May 1971. pp. 380-390.

GOTO, Y. Cracks formed in concrete around deformed torsion bars. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 4. April 1971. pp. 244-251.

HAHS, J. D. *Combined torsion, shear and moment on pretensioned prestressed concrete simply supported rectangular and L-beams*. Thesis. Norma, Oklahoma, University of Oklahoma, 1971. pp. 151.

HANSON, N. W. Seismic resistance of concrete frames with grade 60 reinforcement. *Proceedings of the American Society of Civil Engineers*. Vol. 97, No. ST6. June 1971. pp. 1685-1699.

HARSTEAD, G. A. Testing of large curved prestressing tendons. *Proceedings of the American Society of Civil Engineers*. Vol. 97, No. PO2. March 1971. pp. 475-492.

KUNZEL, H. *Feuchtigkeitstechnische Untersuchungen an aussenputzen und verputzen Wänden*. (Research into moisture movements in renderings and rendered walls.) Thesis. Stuttgart, Technische Hochschule, 1964. Translated from the German. Garston, Building Research Station, 1970. pp. 31. Library Communication 1583.

KRISHNASWAMY, K. T. Mechanism of failure and micro cracking of plain concrete under uniaxial tensile loading. *The Indian Concrete Journal*. Vol. 45, No. 5. May 1971. pp. 204-208, 222.

MUKHERJEE, P. R. and WARWARUK, J. Torsion, bending, and shear in prestressed concrete. *Proceedings of the American Society of Civil Engineers*. Vol. 97, No. ST4. April 1971. pp. 1063-1079.

MUSPRATT, M. A. Stress losses in concrete in prestressed members. *The Indian Concrete Journal*. Vol. 45, No. 3. March 1971. pp. 122-128, 140.

NAWY, E. G. and POTYONDY, J. G. Flexural cracking behaviour of pretensioned I- and T-beams. *Journal of the American Concrete Institute. Proceedings* Vol. 68, No. 5. May 1971. pp. 355-360.

NOSSEIR, S. B. and WARREN, G. E. *Interface slip behaviour of composite prestressed concrete beams*. Port Hueneme, U.S. Naval Civil Engineering Laboratory, 1971. pp. 41. Technical Report R721.
