

Papers, books and articles on cement and concrete

SEPTEMBER - DECEMBER 1953

PAPERS AND BOOKS *Drawn from C & C A Library additions*

- BLAKEY, F. A. and BIRTWISTLE, R. *Size effect in set cement paste specimens*. Melbourne. Division of Building Research. Report C2.1-1. 1953. pp. 8.
- ERIKSEN, B. *Theory and practice of structural design applied to reinforced concrete*. 1st edition. London. Concrete Publications Ltd. 1953. pp. vi, 401.
- MERCER, L. BOYD. *Concrete mix design*. Melbourne. Technical College Press. Research Bulletin No. 2. 1953. pp. 60.
- THOMAS, F. G. and WEBSTER, C. T. *Investigations on building fires*. Part 6. The fire resistance of reinforced concrete columns. London. H.M. Stationery Office. National Building Studies Research Paper No. 18. 1953. pp. iv, 78.
- GRAY, W. S. *Reinforced concrete water towers, bunkers, silos and gantries*. 3rd edition, revised by G. P. Manning. London. Concrete Publications Ltd. 1953. pp. viii, 224.
- DUNHAM, C. W. *The theory and practice of reinforced concrete*. 3rd edition. New York. McGraw-Hill Book Company Inc. 1953. pp. xiii, 499.
- MINISTRY OF WORKS. *Prestressed concrete*. London. H.M. Stationery Office. Advisory Leaflet No. 35. 1953. pp. 8.
- THE CONCRETE ASSOCIATION OF INDIA. *Concrete engineers' handbook*. 1st edition. Bombay. The Association. 1953. pp. viii, 266.
- CENTRE D'INFORMATION DE L'INDUSTRIE CIMENTIERE BELGE. *Pour bien faire le béton*. (Making good concrete.) Brussels. Le Centre d'Information. 1953. pp. 48.
- THAULOW, S. *Betongkontroll på byggeplassen*. (Concrete control on the building site.) 1st edition. Oslo. Norsk Cementforening. 1953. pp. 224.
- HAAS, A. M. *Het gewapend beton als constructie-materiaal*. (Reinforced concrete as a structural material.) Delft. Uitgeverij Waltman. 1953. pp. 24.
- PUCHER, A. *Lehrbuch des Stahlbetonbaues*. (Text book of reinforced concrete construction.) 2nd edition. Vienna. Springer Verlag. 1953. pp. x, 331.
- MAGNEL, G. *Le béton précontraint*. (Prestressed concrete.) 3rd edition. Ghent. Editions Fechey. 1953. pp. 512.
- L'HERMITE, R. *Au pied du mur*. (At the foot of the wall.) 1st edition. Paris. 'Bâtir'. 1953. pp. 104.
- NERENST, P., RASTRUP, E. and IDORN, G. N. *Betonstøbning om vinteren*. (Winter concreting.) Copenhagen. Teknisk Forlag. Statens Byggeforskningsinstitut Anvisning No. 17. 1953. pp. 108. Abbreviated translation into English. pp. 61.
- VEREIN DEUTSCHER ZEMENTWERKE. *Vorträge auf der ordentlichen Mitgliederversammlung am 19 und 20 Mai 1953 in Bad Neuenahr*. (Lectures given at the ordinary Members Meeting on the 19th and 20th of May in Bad Neuenahr.) Tagungsberichte der Zementindustrie Heft 8. Düsseldorf. Verein Deutscher Zementwerke. 1953. pp. 134.
- GILLE, F. *Beiträge zur Konstitution des Portlandzement Klinkers*. (Contribution to the constitution of Portland cement clinker.) Schriftenreihe der Zementindustrie Heft 12. Wiesbaden. Bauverlag GMBH. 1953. pp. 50.
- ZERNA, W. *Spannbeton. Eine Einführung in seine Theorie*. (Prestressed concrete. An introduction to the theory.) 1st edition. Düsseldorf. Werner-Verlag GMBH. 1953. pp. 100.
- DEUTSCHER BETON VEREIN, E. V. *Hauptversammlung 1953. Vorträge*. (Congress 1953. Lectures.) Wiesbaden. Deutscher Beton Verein, E. V. 1953. pp. 334.

Der Schachtofen. Heft. 2. (The shaft kiln. Part 2.) ANSELM, W. *Der Schachtofen.* Abmessungen und Brenneigenschaften. (The shaft kiln. Dimensioning and burning properties.) pp. 1-29. ANSELM, W. and KOCH, A. *Brenntechnik mit Sauerstoff.* Das AK-Verfahren. (Burning technique using oxygen. The AK system.) Wiesbaden. Bauverlag GMBH. October 1953. pp. 31-68.

BELGRANO, J. C., NIETO, A. LOPEZ and URCELAY, J. M. *Tratado de nomografia.* (Treatise on nomographs.) 1st edition. Madrid. Instituto Tecnico de la Construcción y del Cemento. 1953. pp. xii, 388.

The following books were published by Verlag von Wilhelm Ernst und Sohn, Berlin:

KLEINLOGEL, A. *Winterarbeiten im Beton und Stahlbetonbau.* (Concrete and reinforced concrete construction in winter.) 4th edition. 1953. pp. viii, 131.

KERSTEN, C. and MIESSLER, K. *Der Stahlbetonbau.* Teil 1. Ausführung und Berechnung der Grundformen. (Reinforced concrete construction. Part 1. Fundamentals of design and calculation.) 19th edition. 1953. pp. xii, 270.

MUND, O. *Handbuch für Stahlbetonbau.* Band 4, Teil 1. Die Bodenphysikalischen Grundlagen. Stützmauern. (Handbook of reinforced concrete construction. Vol. 4, Part 1. The fundamentals of soil mechanics. Retaining walls.) 5th edition. 1953. pp. 204.

KERSTEN, C. and DEDERING, C. *Brücken in Stahlbeton.* Band 1. Platten und Balkenbrücken. (Reinforced concrete bridges. Vol. 1. Slab and beam bridges.) 8th edition. 1953. pp. viii, 224.

The following publications were issued by the Highway Research Board, Washington, U.S.A:

Air-entrained concrete. Properties of air voids and service record of pavements. Bulletin No. 70. 1953. pp. 24.

MCCALL, J. T. and CLAUS, R. J. *Effect of pellet and flake forms of calcium chloride in concrete.* Bulletin No. 75. 1953. pp. ii, 18.

Filling and sealing of joints and cracks in concrete. Bulletin No. 78. 1953. pp. 38.

The following publications were issued by the University of Illinois, Urbana, Illinois, U.S.A:

ZWOYER, E. M. *Shear strength of simply-supported prestressed concrete beams.* Civil Engineering Studies. Structural Research Series No. 53. 1953. pp. viii, 151.

BILLET, D. F. *Study of prestressed concrete beams failing in flexure.* Civil Engineering Studies. Structural Research Series No. 54. 1953. pp. x, 220.

The following publications were received from the Portland Cement Association, Chicago, U.S.A:

MILLER, D. G., MANSON, P. W. and CHEN, R. T. H. *Bibliography on sulfate resistance of Portland cements, concretes and mortars (an annotation of articles reviewed before 1952).* pp. 133.

POWERS, T. C. *Void spacing as a basis for producing air-entrained concrete.* Research and Development Division. pp. 29.

GONNERMAN, H. F., LERCH, W. and WHITESIDE, T. M. *Investigations of the hydration expansion characteristics of Portland cements.* Research Department Bulletin No. 45. pp. vi, 168.

Concrete for Railways. No. 47. pp. 16.

Concrete Highways and Public Improvements. Vol. 34, No. 2. Fall, 1953. pp. 16.

Modern developments in Reinforced Concrete. No. 29. pp. 20.

Short-cut soil-cement testing procedures for sandy soils. Soil-Cement Bureau. SCB.4. pp. 12.

Labor-saving concrete dairy barns. F.19. pp. 20.

Soil-cement for paving slopes and lining ditches. Soil-Cement Bureau. SCB.14. pp. 6.

Architectural Concrete. No. 52. pp. 20.

The following publications were issued by the Cement and Concrete Association, London:

Concrete Quarterly. No. 19. pp. 38.

COOLEY, E. H. *Friction in post-tensioned prestressing systems.* Research Report No. 1. pp. 38.

COOLEY, E. H. *Estimation of friction in prestressed concrete.* Cb.5. pp. 15.

Concrete block walls. 2nd (revised) edition. 1953. Bb.7. pp. 16.

An introduction to lightweight concrete. 2nd (revised) edition. 1953. Bb.14. pp. 12.

How to make prestressing cables. Man on the Job Leaflet No. 15. Bm.15. (Revised edition.) pp. 16.

Building with concrete blocks. Man on the Job Leaflet No. 17. Bm.17. pp. 20.

Prestressed concrete. C & C A Library Record Ch.2. Supplement No. 2. pp. 58.

Concrete block walls. C & C A Library Record Ch.29. pp. 24.
