

# Papers, books and articles on cement and concrete\*

SEPTEMBER-DECEMBER 1955

## MATERIALS

### Cement

#### MANUFACTURE

- ANSELM, W. Die deutsche Zementindustrie. (The German cement industry.) *Zement-Kalk-Gips*. Vol. 8, No. 12. December 1955. pp. 434-438.
- BLODA, A. V. *Formación y destrucción de anillos en los hornos rotativos para cemento Portland*. (Formation and destruction of rings in Portland cement rotary kilns.) Madrid, Instituto Tecnico de la Construcción y del Cemento, 1955. pp. 22. Publication No. 162.
- BORCBAKAN, C. Eine Übersicht über die türkische Zementindustrie. (A survey of the Turkish cement industry.) *Zement-Kalk-Gips*. Vol. 8, No. 10. October 1955. pp. 363-365.
- BURKE, E. Dust arrestment in the cement industry. *Chemistry and Industry*. No. 42. 15th October 1955. pp. 1312-1319.
- CENTRE D'INFORMATION DE L'INDUSTRIE CIMENTERIE BELGE. *Le ciment Portland*. (Portland cement.) Brussels, Centre D'Information, 1955. pp. 82.
- CORNFORTH, R. M. and LEE, E. R. JR. Firing kilns with fluid petroleum coke. *Rock Products*. Vol. 58, No. 11. November 1955. pp. 98, 103, 120.
- IHLEFELDT, H. *Bestimmung des Gehalts an Feststoffen in den Abgasen der Zementwerke und deren Kornzusammensetzung*. (Determination of the content of solids in the flue gases of cement works and the grading of the particles.) Düsseldorf, Schriftenreihe der Zementindustrie Heft 18, 1955. pp. 106.
- KALINICHENKO, V. M. Calculation of the chain system in a rotary kiln (in Russian). *Tsement*. Vol. 21, No. 5. September-October 1955. pp. 14-20.
- KÜHL, H. Fifty years of progress in cement manufacture in Germany. *Cement and Lime Manufacture*. Vol. 28, No. 5. September 1955. pp. 53-60.
- LLOVET, P. P. La industria del cemento en el mundo. Panorama de la industria europea del cemento en el año 1954. (The cement industry of the world. Panorama of the European cement industry in the year 1954.) *Cemento Hormigón*. Vol. 21, No. 259. October 1955. pp. 384-392.
- MALQUORI, G. I cementi di alto forno in Italia. (Blast-furnace slag cements in Italy.) *Silicates Industriels*. Vol. 20, No. 10. October 1955. pp. 377-379.
- MUHLRAD, M. Le dépoussiérage industriel. (Collection of industrial dusts.) *Revue des Matériaux de Construction et de Travaux Publics (Edition C)*. No. 480. September 1955. pp. 229-242. No. 481. October 1955. pp. 263-275.
- MÜNK, R. Die statistische Erfassung des Verbrauchs an Drehofenausmauerungen. (The statistical estimation of lining consumption in rotary kilns.) *Zement-Kalk-Gips*. Vol. 8, No. 12. December 1955. pp. 439-447.
- RUPPERT, G. Der Leistungsstand des modernen Lepolofens und des Ofens mit Schwebegaswärmetauscher. (The performance of the modern Lepol kiln and the kiln equipped with suspension type heat exchanger.) *Zement-Kalk-Gips*. Vol. 8, No. 12. December 1955. pp. 421-427.
- VEREIN DEUTSCHER ZEMENTWERKE E.V. *Drehofenuntersuchungen an Ofen mit Abhitzekeßeln und Kalzinatoren*. (Investigations on rotary kilns with waste-heat boilers and calcinators.) Düsseldorf, Schriftenreihe der Zementindustrie Heft 17, 1955. pp. 62.
- VOOS, E. Der Sichtvorgang. (The air separation process.) *Zement-Kalk-Gips*. Vol. 8, No. 9. September 1955. pp. 319-322.

\*All items listed are held in the C & CA Library. For the benefit of readers who wish to index these references, separate unbacked copies of this section of the *Magazine* may be obtained free of charge from the Editor.

WOODS, H. Stable operation of kilns with heat recuperators. *Rock Products*. Vol. 58, No. 12. December 1955. pp. 72, 160, 162.

## PROPERTIES

BLANKS, R. F. and KENNEDY, H. L. *The technology of cement and concrete. Vol. 1. Concrete materials*. 1st edition. New York, John Wiley and Sons, Inc., 1955. pp. ix, 422.

CHUNOSOV, V. I. Determining the iron and aluminium in cement by the method of amperometric titration (in Russian). *Tsement*. Vol. 21, No. 5. September-October 1955. pp. 22-24.

FRATINI, N. and TURRIZIANI, R. Recherche sul comportamento dei cementi all'attacco con speciali soluzioni alcaline. (Research on the behaviour of cement against attack by special alkaline solutions.) *La Ricerca Scientifica*. Vol. 25, No. 10. October 1955. pp. 2834-2837.

GRUDEMÖ, Å. *An electronographic study of the morphology and crystallization properties of calcium silicate hydrates*. Stockholm, Swedish Cement and Concrete Research Institute, 1955. pp. 104. Proceedings No. 26.

HUMMEL, A. and WESCHE, K. Von der Erhärtung verschiedener Bindemittel bei niederen Wärmegraden. (On the hardening of various binding materials at low temperatures.) *Zement-Kalk-Gips*. Vol. 8, No. 9. September 1955. pp. 322-325.

LANGAVANT, J. CLERET DE. L'évaluation des quantités de chaleur dégagées à long terme par la méthode "Thermos". (Evaluation of the quantities of heat emitted over a long period by the "Thermos" method.) *Revue des Matériaux de Construction et de Travaux Publics (Edition C)*. No. 481. October 1955. pp. 256-257.

LOCHER, F. W. Korngrößenbestimmung in Suspensionen durch Messung der Lichtdurchlässigkeit. (Determination of grain size in suspensions by measurement of light permeability.) *Zement-Kalk-Gips*. Vol. 8, No. 9. September 1955. pp. 301-308.

MARATHE, B. R. and JOGLEKAR, G. D. Fineness of cement and methods of its measurement. *Indian Standards Institution Bulletin*. Vol. 7, No. 5. September 1955. pp. 151-155.

MENKE, A. Bestimmung der Mahlfeinheit durch Hand und Maschinensiebung. (Determination of the fineness of grinding by hand sieving and mechanical sieving.) *Zement-Kalk-Gips*. Vol. 8, No. 10. October 1955. pp. 361-363.

SEIDEL, K. Über Versuche mit frischen und abgelaugten Zementen. (Tests with fresh and matured cements.) *Zement-Kalk-Gips*. Vol. 8, No. 12. December 1955. pp. 427-434.

SERSALE, R. Sulla determinazione dell'idrossido di calcio libero nei conglomerati cementizi. (Determination of the free calcium hydroxide in cement conglomerates.) *L'Industria Italiana del Cemento*. Vol. 25, No. 10. October 1955. pp. 237-240.

SIMANOVSKAYA, R. E. and VODZINSKAYA, Z. V. Effect of fluorine in the presence of phosphates on the reaction of formation and crystallization of the minerals in clinker (in Russian). *Tsement*. Vol. 21, No. 5. September-October 1955. pp. 12-14.

SPOHN, E. Das Wasserhaltevermögen von Putz und Mauermörteln. (The water-retaining capacity of masonry cements.) *Zement-Kalk-Gips*. Vol. 8, No. 9. September 1955. pp. 299-301.

TÖBIO, J. M. Dos aparatos sencillos para la determinación del fraguado de los aglomerantes hidráulicos. (Two simple apparatuses for determining the setting of hydraulic binders.) *Informes de la Construcción*. Vol. 8, No. 74. October 1955. Section 619-1. pp. 8.

WALZ, K. Verwendung von heissem Zement (Literaturzusammenstellung). (The use of hot cement (literature on the subject).) *Zement-Kalk-Gips*. Vol. 8, No. 9. September 1955. pp. 315-319.

## Aggregates

BLANKS, R. F. and KENNEDY, H. L. *The technology of cement and concrete. Vol. 1. Concrete materials*. 1st edition. New York, John Wiley and Sons, Inc., 1955. pp. ix, 422.

FARRINGTON, E. F. The use of blast-furnace slag as a concrete aggregate. *Proceedings of the Institution of Civil Engineers*. Part 1. Vol. 5, No. 1. January 1956. pp. 56-59.

FIESENHEISER, E. I. and WASIL, B. A. Heavy steel-aggregate concrete. *Journal of the American Concrete Institute*. Vol. 27, No. 1. September 1955. pp. 73-82.

KIRKHAM, R. H. H. A buoyancy meter for rapidly estimating the moisture content of concrete aggregates. *Civil Engineering and Public Works Review*. Vol. 50, No. 591. September 1955. pp. 979-980.

KIRKHAM, R. H. H. and HIGGINS, G. E. Control methods for measuring the moisture in concrete aggregates. *Civil Engineering and Public Works Review*. Vol. 50, No. 593. November 1955. pp. 1221-1224.

PIKE, R. G., HUBBARD, D. and INSLEY, H. Mechanisms of alkali-aggregate reaction. *Journal of the American Concrete Institute*. Vol. 27, No. 1. September 1955. pp. 13-34.

## Reinforcement

BLANKS, R. F. and KENNEDY, H. L. *The technology of cement and concrete. Vol. 1. Concrete materials*. 1st edition. New York, John Wiley and Sons, Inc., 1955. pp. ix, 422.

COMMISSIE VOOR UITVOERING VAN RESEARCH INGESTELD DOOR DE BETONVERENIGING. *Onderzoek van hoogwaardig betonstaal voor voorgespannen beton*. (Study of high-tensile steel for prestressed concrete.) The Hague, Betonvereniging, 1955. pp. 48. C.U.R. Report No. 3.

MENDE, H. and KORNOSZ, T. Das Schweissen von Bewehrungskörben für Fertigbauteile aus Stahlbeton im Wohnungsbau. (The welding of reinforcement cages for precast reinforced concrete members in the construction of houses.) *Bauplanung-Bautechnik*. Vol. 9, No. 9. September 1955. pp. 405-411.

MIRONOV, S. A. and KRUILOV, B. A. Corrosion of reinforcement in concrete with additions of salts (in Russian). *Beton i Zhelezobeton*. Vol. 1, No. 8. November 1955. pp. 271-274.

## Admixtures

- JAIN, L. C. and PATWARDHAN, N. K. Pulverised fuel ash as a pozzuolanic material. *Irrigation and Power*. Vol. 12, No. 3. July 1955. pp. 460-471.
- RISSEL, E. Erfahrungen an Beton mit Kunstharzzusätzen. (Experience of admixtures of plastics to concrete.) *Zement-Kalk-Gips*. Vol. 8, No. 10. October 1955. pp. 355-361.

## CONCRETE

### Mix design

- ALSTINE, C. B. VAN. Mixing water control by use of a moisture meter. *Journal of the American Concrete Institute*. Vol. 27, No. 3. November 1955. pp. 341-347.
- BALATEV, P. K., SOROKER, V. I. AND OTHERS. Stiff concrete mixes in the reinforced concrete products industry (in Russian). *Beton i Zhelezobeton*. Vol. 1, No. 6. September 1955. pp. 197-203.
- CHAMPLEWSKI, J. Metody nomogramowo-doświadczalne projektowania betonów konstrukcyjnych. (Design of concrete mixes based on nomograms and experiments.) *Inżynieria i Budownictwo*. Vol. 12, No. 11. November 1955. pp. 365-372.
- COMMISSIE VOOR UITVOERING VAN RESEARCH INGESTELD DOOR DE BETONVERENIGING. *Literatuurstudie over de opbouw van beton*. (A study of the literature on the composition of concrete.) The Hague, Betonvereniging, 1955. pp. 56. C.U.R. Report No. 1.
- GORCHAKOV, G. I. Increasing the strength and frost resistance of concrete (in Russian). *Beton i Zhelezobeton*. Vol. 1, No. 8. November 1955. pp. 274-279.
- HANSEN, H. Sandens korngradering og mørtelfasthet. (The grading of sand and the strength of mortar.) *Betongen Idag*. Vol. 20, No. 4. September 1955. pp. 92-105.
- HOON, R. C., BALASUBRAHMANYAM, S. and VINAYAKA, M. R. Gap grading of aggregate in concrete mixes. *Indian Concrete Journal*. Vol. 29, No. 11. November 1955. pp. 356-359.
- KING, W. H. and VENTRESS, R. G. Design of concrete mixes for high strength concrete. *Proceedings, South African Prestressed Concrete Development Group*. Vol. 4, No. 7. September 1955. pp. 1-23.
- KIRKHAM, R. H. H. Apparatus for the field control of concrete workability. *Civil Engineering and Public Works Review*. Vol. 50, No. 592. October 1955. pp. 1109-1110.
- LEMPICKI, J. Projektowanie betonu z nielicznych frakcji kruszywa. (Design of concrete mixes with a small number of aggregate fractions.) *Inżynieria i Budownictwo*. Vol. 10, No. 10. October 1955. pp. 338-343.
- MALINOWSKI, R. Dobór optymalnej ilości piasku w kruszywie do betonu w oparciu o graniczne krzywe przesiewu. (Choice of optimum sand proportion in aggregates for concrete on the basis of limit grading curves.) *Inżynieria i Budownictwo*. Vol. 10, No. 10. October 1955. pp. 333-337.
- NATIONAL SAND AND GRAVEL ASSOCIATION and NATIONAL READY MIXED CONCRETE ASSOCIATION. *Exercises in calculating proportions for concrete*. Washington, October 1955. pp. 24. Joint Research Laboratory Publication No. 1.
- ÖSTERREICHISCHER BETONVEREIN. *Leitsätze für die Herstellung von Beton und für die Bauüberwachung im Beton- und Stahlbetonbau*. (Recommendations for making concrete and for control in concrete and reinforced concrete construction.) Vienna, Schriftenreihe des Österreichischen Betonvereins, Heft 2, 1955. pp. vi, 104.
- PELTIER, R. Note sur la courbe intrinsèque des bétons. (Note on the "intrinsic curve" for concrete.) *Annales des Ponts et Chaussées*. Vol. 125, No. 6. November-December 1955. pp. 779-789.
- PIETRZYKOWSKI, J. W poszukiwaniu najwłaściwszej metody projektowania mieszanek betonowej. (Research on the most suitable method for the design of concrete mixes.) *Inżynieria i Budownictwo*. Vol. 12, No. 12. December 1955. pp. 405-409.
- SKRAMTAEV, B. G. and BUDNILOV, A. A. New data on rapid-hardening high-strength concrete made from stiff concrete mixes (in Russian). *Beton i Zhelezobeton*. Vol. 1, No. 6. September 1955. pp. 226-227.
- STEWART, D. A. Specifications for concrete. *The Reinforced Concrete Review*. Vol. 3, No. 10. 1955. pp. 717-734.
- THAULOW, S. Betongproportjonering. (Concrete proportioning.) *Betongen Idag*. Vol. 20, No. 4. September 1955. pp. 109-117.
- VOLSOM, E. VAN and DUTRON, R. *L'hétérogénéité des mélanges destinés à l'exécution des chaussées en béton de ciment*. (The heterogeneity of mixes for the construction of concrete road slabs.) Brussels, Centre de Recherches Routières, 1955. pp. 86. Rapport de Recherche.

### Properties
