

Papers, books and articles on cement and concrete*

MAY-AUGUST 1956

MATERIALS

Cement

MANUFACTURE

- ANSELM, W. Rational approaches to cement manufacture. *Pit and Quarry*. Vol. 49, No. 1. July 1956. pp. 70-74, 146.
- DAHL, L. A. Control of the lime balance in Portland cement clinker. *Rock Products*. Vol. 59, No. 8. August 1956. pp. 154, 156, 158, 160, 162, 166.
- DERSNAH, W. R. Flame control in rotary kilns. *Pit and Quarry*. Vol. 49, No. 1. July 1956. pp. 149, 154, 156, 158, 160, 162-163, 166-167.
- GRIMME, H. Schwingmühlen und ihr Einsatz bei der Herstellung von Bindemitteln. (Vibratory mills and their use in the manufacture of cements.) *Zement-Kalk-Gips*. Vol. 9, No. 8. August 1956. pp. 360-365.
- GRINGMUTH, W. Praxis der Lepolofen-Regelung. (Lepol kiln control practice.) *Zement-Kalk-Gips*. Vol. 9, No. 7. July 1956. pp. 305-319.
- HOGREBE, K. and LEHMANN, W. S. "Tracer"-Versuche an Drehöfen mit La^{140} . (Tracer tests in rotary kilns with La^{140} .) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 210-215.
- MALUQUER, J. M. FERRER. Anillos: Su formación y destrucción en los hornos rotativos de cemento empleando fuel-oil como combustible. (Rings: their formation and destruction in rotary kilns using fuel oil for burning.) *Cemento Hormigón*. Vol. 22, No. 266. May 1956. pp. 174-179.
- MICHEL, H. Ölfeuerung an Zement-Drehöfen. (Oil firing of rotary cement kilns.) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 218-223.
- RUSTOM, M. Über die Natur der Tonbestandteile der Rohstoffe schweizerischer Portlandzemente. (On the nature of the clay constituents of the raw materials used in Swiss Portland cements.) *Schweizer Archiv*. Vol. 22, No. 6. June 1956. pp. 197-200.
- SCHWIETE, H. E. Der Einfluss der Tonminerale auf die Staubbildung beim Klinkerbrand. (The influence of the clay minerals on the formation of dust in the burning of clinker.) *Zement-Kalk-Gips*. Vol. 9, No. 8. August 1956. pp. 351-357.
- SCHWIETE, H. E. and ZIEGLER, G. Beitrag zur Thermochemie von Zementrohstoffen. (Contribution to the thermochemistry of cement raw materials.) *Zement-Kalk-Gips*. Vol. 9, No. 6. June 1956. pp. 257-262.
- TANAKA, T. Research on the hydraulic properties of granulated blast furnace slag. Part 2. Studies on the synthetic glassy slags in the system $\text{SiO}_2\text{-Al}_2\text{O}_3\text{-CaO}$ reveal new data for cement manufacturers. *Rock Products*. Vol. 59, No. 7. July 1956. pp. 106, 108, 110.
- VARMA, M. C. P. The application of differential thermal analysis to raw materials in the manufacture of cement. *The Indian Concrete Journal*. Vol. 30, No. 6. June 1956. pp. 175-176.
- VIRELLA, A. Des irrégularités observées dans la cuisson des clinkers à ciment portland. (Irregularities observed in the burning of Portland cement clinker.) *Revue des Matériaux de Construction et de Travaux Publics* (Edition C). No. 490-491. July-August 1956. pp. 173-177.
- WEBER, P. Der Wärmerückgewinn aus der Klinkerkühlung. (Heat recovery from clinker cooling.) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 200-203.
- ZIEGLER, E. Manteltemperatur und Strahlungsverluste von Drehöfen. (Kiln-shell temperature and radiation losses in rotary kilns.) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 194-200.

*All items listed are held in the C&CA Library. For the benefit of readers who wish to index these references, separate unbacked copies of this section of the Magazine may be obtained free of charge from the Editor.

PROPERTIES

BRAND, W. Über die Zeit-Temperatur-Abhängigkeit der Erhärtung verschiedener Zementarten. (The time-temperature relation for the hardening of various types of cement.) *Zement-Kalk-Gips*. Vol. 9, No. 7. July 1956. pp. 328-332.

BROCARD, J. Idées actuelles sur l'hydratation des ciments. (Present-day views on the hydration of cements.) *Silicates Industriels*. Vol. 21, No. 6-7. June-July 1956. pp. 271-279.

CZERNIN, W. Zur Frage der Frostbeständigkeit der Zemente. (On the resistance of cement to frost.) *Zeitschrift des Österreichischen Ingenieur- und Architekten Vereines*. Vol. 101, No. 13/14. 1956. pp. 141-145.

HABOCK, H. Über die Normenfestigkeit von Zementen in Abhängigkeit von Siebrückstand, Blaine-Wert und Körnungskurve. (On the standard strength of cements in relation to sieve residue, Blaine value and grading curve.) *Zement und Beton*. No. 5. May 1956. pp. 15-17.

LEA, F. M. *The chemistry of cement and concrete*. (Revised edition of Lea and Desch.) 2nd edition, London, Edward Arnold (Publishers) Ltd, 1956. pp. xvi, 637.

LIEBER, W. Eine neue Methode zur Bestimmung von TiO_2 . (A new method for the determination of titanium oxide.) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 216-218.

PRESSLER, E. E., BRUNAUER, S. and KANTRO, D. L. Investigation of the Franke method of determining free calcium hydroxide and free calcium oxide. *Analytical Chemistry*. Vol. 28. May 1956. pp. 896-911. Reprint by Portland Cement Association, Chicago. May 1956. pp. 16.

SHELLARD, E. The place of Portland cement in concrete making. *The Reinforced Concrete Review*. Vol. 4, No. 2. June 1956. pp. 69-94.

SUZUKAWA, Y. Die Alkaliphasen im Portlandzement. 1. Die Natriumphase. (The alkali phases in Portland cement. 1. The sodium phase.) *Zement-Kalk-Gips*. Vol. 9, No. 8. August 1956. pp. 345-351.

WALLRAFF, MARIA. Kolorimetrische Bestimmung von Aluminium, Eisen und Titan in Zementen. (Colorimetric determination of aluminium, iron and titanium in cements.) *Zement-Kalk-Gips*. Vol. 9, No. 5. May 1956. pp. 186-194.

Aggregates

CAVANAGH, K. J. The role of aggregates in concrete. *Constructional Review*. Vol. 29, No. 6. June 1956. pp. 25-32.

GUPPY, EILEEN M. *Chemical analyses of igneous rocks, metamorphic rocks and minerals 1931-1954*. Compiled from the records of the Geological Survey. 1st edition, London. H.M. Stationery Office, 1956. pp. v, 78.

RUSIECKI, A. Betony na lekkich wypełniaczach. Kruszywo R_2 . (Concrete made with lightweight aggregates. Aggregate type R_2 .) *Inżynieria i Budownictwo*. Vol. 13, No. 6. June 1956. pp. 245-250.

SAXER, E. L. A direct method of determining absorption and specific gravity of aggregates. *Rock Products*. Vol. 59, No. 5. May 1956. pp. 78-79, 87.

SHELLARD, E. S. Sand and gravel in concrete. *Cement Lime and Gravel*. Vol. 31, No. 2. August 1956. pp. 63-69.

SWENSON, E. G. and CHALY, V. Basis for classifying deleterious characteristics of concrete aggregates materials. *Journal of the American Concrete Institute*. Vol. 27, No. 9. May 1956. pp. 987-1002.

TEBAR, D. G. *Las cenizas volantes como material de construcción*. (Fly ash as a constructional material.) Madrid. Instituto Tecnico de la Construcción y del Cemento. Publication No. 175. 1956. pp. 22.

UPPAL, I. S. Reducing the capillarity of sand by chemical treatment. *The Indian Concrete Journal*. Vol. 30, No. 8. August 1956. pp. 261-263.

Reinforcement

BONNET, M. Etude expérimentale des caractéristiques mécaniques des câbles de précontrainte utilisés pour la reconstruction du Pont de Villeneuve-Saint-Georges sur la Seine. (Experimental study of the mechanical characteristics of prestressing cables used for the reconstruction of the Villeneuve-Saint-Georges Bridge on the Seine.) *Annales des Ponts et Chaussées*. Vol. 126, No. 4. July-August 1956. pp. 463-526.

CHADDA, L. R. The use of bamboo for reinforcing soil-cement. *The Indian Concrete Journal*. Vol. 30, No. 6. June 1956. pp. 200-201.

CHAMBERLIN, S. J. Spacing of reinforcement in beams. *Journal of the American Concrete Institute*. Vol. 28, No. 1. July 1956. pp. 113-134.

EIMER, C. Tarcie kabli sprężających w świetle badań na obiekcie eksperymentalnym. (The friction of prestressing cables in the light of experimental investigations.) *Archiwum Inżynierii Lądowej*. Vol. 2, No. 1-2. 1956. pp. 109-137.

ERNST, W. Baustahlgewebe. Überblick über seine Entwicklung. (Steel fabric reinforcement. Survey of its development.) *Beton und Stahlbetonbau*. Vol. 51, No. 7. pp. 153-155.

FRIEDRICH, E. Die Entwicklung hochwertiger Stähle für schlauffe Bewehrung im Betonbau in Österreich. (The development of high tensile steels for non-tensioned reinforcement in concrete construction in Austria.) *Betonstein Zeitung*. Vol. 22, No. 8. August 1956. pp. 434-442.

McLEAN, G. and SIESS, C. P. Relaxation of high-tensile-strength steel wire for use in prestressed concrete. *University of Illinois Civil Engineering Studies*. Structural Research Series No. 117. 1956. pp. 7.

NAWROT, T. and JASECKI, A. Zależność wytrzymałości prętów zbrojeniowych od ich średnic. (Relation between the strength of reinforcing bars and their diameter.) *Inżynieria i Budownictwo*. Vol. 13, No. 7. July 1956. pp. 274-277.

NAWROT, T. and JASECKI, A. Połączenia spawane w zbrojeniu do żelbetu. (Welded joints in concrete reinforcement.) *Inżynieria i Budownictwo*. Vol. 13, No. 8. August 1956. p. 324.

PRESTON, H. KENT. Wire and strand for prestressed concrete. *Civil Engineering*. Vol. 26, No. 6. June 1956. pp. 46-49.

Admixtures

- BALASUBRAHMANYAM, S., VINAYAKA, M. R. and PUJARI, H. K. Air entrainment in cement mortar. *The Indian Concrete Journal*. Vol. 30, No. 5. May 1956. pp. 154-158.
- BAROIN, J-B. Application de l'occlusion d'air à la fabrication des produits en béton manufacturés. (Application of entrained air in the manufacture of precast concrete products.) *Revue des Agglomérés de Ciment*. No. 5. May 1956. pp. 1-9.
- BLOEM, D. L. Admixtures for ready-mixed concrete. *Pit and Quarry*. Vol. 48, No. 11. May 1956. pp. 302, 304, 306, 308.
- BROCARD, J. Les divers procédés d'accélération de la prise et du durcissement des bétons applicables à la préfabrication. (The various processes for the acceleration of the setting and hardening of concretes in pre-fabrication.) *Annales de l'Institut Technique du Bâtiment et des Travaux Publics*. Vol. 9, Nos. 103-104. July-August 1956. Béton, Béton Armé No. 38. pp. 709-728.
- BRUERE, G. M. Air entrainment in mortars. *Journal of the American Concrete Institute*. Vol. 27, No. 10. June 1956. pp. 1115-1124.
- DOMSCHEIT, E. and SCHOLZ, H. Der heutige Stand der Betontechnologie unter besonderer Berücksichtigung der Zusatzmittel. (The present position of concrete technology with special reference to admixtures.) *Betonstein Zeitung*. Vol. 22, No. 6. June 1956. pp. 305-313.
- LEWIS, J. I. M. Sodium benzoate in concrete. *Civil Engineering and Public Works Review*. Vol. 51, No. 602. August 1956. pp. 881-882.
- MONTOYA, P. J. Hormigón aireado en obra. (Air-entrained concrete in practice.) *Informes de la Construcción*. Vol. 9, No. 83. August-September 1956. Section 682-9. pp. 18.

CONCRETE

Mix design

- LENHART, W. B. Electronic proportioning for dry mix concrete products. *Rock Products*. Vol. 59, No. 7. July 1956. pp. 148-149, 174.
- LEVIAINT, I. Composition des bétons de consistance plastique. (The composition of plastic concretes.) *La Technique Moderne—Construction*. Vol. 11, No. 8. August 1956. pp. 238-240.
