

Proceedings of the Institution of Civil Engineers 2004: Maritime Engineering, vol. 157

Subject index

Coastal engineering

- Accounting for random wave run-up in overtopping predictions.
Hedges T. S. and Reis M. T. Sep., 113–122
- Accounting for variability in coastal prediction. Reeve D. E. Mar., 35–46
- Coastline change and implications for habitat loss. Pontee N. I., Drummond J. R. and Morrissey D. J. Sep., 133–142
- Determination of the efflux velocity from a ship's propeller.
Hamill G. A., McGarvey J. A. and Hughes D. A. B. Jun., 83–91
- Modelling directional random wave propagation inshore. Kuang C.-P. and Stansby P. K. Sep., 123–131
- Risk assessment of revetments by Monte Carlo simulation. Balas C. E., Balas L. and Williams A. T. Jun., 61–70
- Seismic response of a rubble mound breakwater in Turkey. Yüksel Y., Çetin K. Ö., Özgüven O., Isik N. S., Cevik E. and Sümer B. M. Dec., 151–161
- Solving mild-slope equation by explicit scheme. Li B. and Fleming C. A. Dec., 175–182

Coastal management

- Simulation of the Egyptian coastal ecosystem functions. Hamza W., Ennet P. and Tamsalu R. Mar., 23–33

Conservation

- Coastline change and implications for habitat loss. Pontee N. I., Drummond J. R. and Morrissey D. J. Sep., 133–142

Demolition

- Deconstruction of the Maureen platform and loading column.
Broughton P., Davies R. L. and Green M. Mar., 3–21

Design methods & aids

- Accounting for random wave run-up in overtopping predictions.
Hedges T. S. and Reis M. T. Sep., 113–122

Disaster engineering

- The Indian Ocean tsunami: the engineers' response. Freer R. *Briefing*. Dec., 149–150

Dredging

- Saltmarsh loss and maintenance dredging in estuaries. Pontee N. I. Jun., 71–82

Environment

- Saltmarsh loss and maintenance dredging in estuaries. Pontee N. I. Jun., 71–82
- Simulation of the Egyptian coastal ecosystem functions. Hamza W., Ennet P. and Tamsalu R. Mar., 23–33

Geotechnical engineering

- Minimising dredging for seawall construction in Hong Kong.
Neville-Jones P., Swann L., Dou H. and Wai C. C. Sep., 103–111
- Seismic response of a rubble mound breakwater in Turkey. Yüksel Y., Çetin K. Ö., Özgüven O., Isik N. S., Cevik E. and Sümer B. M. Dec., 151–161

Hydraulics & hydrodynamics

- Ship effects at the bankline of navigation channels. Maynard S. Jun., 93–100
- Solving mild slope equation by explicit scheme and nested grids.
Li B. and Fleming C. A. Dec., 175–182
- Velocity and solute concentration distributions in model harbours. Yin J., Falconer R. A. and Chen Y. Mar., 47–56

Management

- Coastline change and implications for habitat loss. Pontee N. I., Drummond J. R. and Morrissey D. J. Sep., 133–142
- Saltmarsh loss and maintenance dredging in estuaries. Pontee N. I. Jun., 71–82

Maritime engineering

- Resonant response of harbours to short-wave groups. Karambas Th. V. and Koutitas C. Dec., 163–169
- Seismic response of a rubble mound breakwater in Turkey. Yüksel Y., Çetin K. Ö., Özgüven O., Isik N. S., Cevik E. and Sümer B. M. Dec., 151–161
- The Indian Ocean tsunami: the engineers' response. Freer R. *Briefing*. Dec., 149–150

Mathematical modelling

- Accounting for variability in coastal prediction. Reeve D. E. Mar., 35–46
- Modelling directional random wave propagation inshore. Kuang C.-P. and Stansby P. K. Sep., 123–131
- Resonant response of harbours to short-wave groups. Karambas Th. V. and Koutitas C. Dec., 163–169
- Ship effects at the bankline of navigation channels. Maynard S. Jun., 93–100
- Simulation of the Egyptian coastal ecosystem functions. Hamza W., Ennet P. and Tamsalu R. Mar., 23–33
- Solving mild slope equation by explicit scheme and nested grids.
Li B. and Fleming C. A. Dec., 175–182
- Velocity and solute concentration distributions in model harbours. Yin J., Falconer R. A. and Chen Y. Mar., 47–56

Municipal & public service engineering

- Accounting for variability in coastal prediction. Reeve D. E. Mar., 35–46

Offshore engineering

- Deconstruction of the Maureen platform and loading column.
Broughton P., Davies R. L. and Green M. Mar., 3–21
- Offshore wind farm e-mail forum launch. Glover D. N. R. and Hill N. J. *Briefing*. Dec., 147–148

Ports, docks & harbours

- Resonant response of harbours to short-wave groups. Karambas Th. V. and Koutitas C. Dec., 163–169

Velocity and solute concentration distributions in model
harbours. Yin J., Falconer R. A. and Chen Y. Mar., 47 – 56

Power stations (non-fossil fuel)

Offshore wind farm e-mail forum launch. Glover D. N. R. and Hill
N. J. *Briefing*. Dec., 147 – 148

Rehabilitation, reclamation & renovation

Deconstruction of the Maureen platform and loading column.
Broughton P., Davies R. L. and Green M. Mar., 3 – 21

Risk & probability analysis

Risk assessment of revetments by Monte Carlo simulation. Balas
C. E., Balas L. and Williams A. T. Jun., 61 – 70

Sea defences

Accounting for random wave run-up in overtopping predictions.
Hedges T. S. and Reis M. T. Sep., 113 – 122

Minimising dredging for seawall construction in Hong Kong.

Neville-Jones P., Swann L., Dou H. and Wai C. C. Sep.,
103 – 111

Risk assessment of revetments by Monte Carlo simulation. Balas
C. E., Balas L. and Williams A. T. Jun., 61 – 70

Seismic engineering

The Indian Ocean tsunami: the engineers' response. Freer
R. *Briefing*. Dec., 149 – 150

Waterways & canals

Ship effects at the bankline of navigation channels. Maynard
S. Jun., 93 – 100
