

# Corrigendum: Water smart parks

Geoffery Raymond Eves MBA, B Bus, Dip, CD  
Director Infrastructure, City of Stirling, Western Australia

The following amendment has been identified to the paper printed in *Proceedings of the Institution of Civil Engineers – Municipal Engineer* **165(1)**: 11–17, <http://dx.doi.org/10.1680/muen.2012.165.1.11>.

Page 12, section 4 currently reads

The city of Stirling has 355 bores and associated infrastructure that represents a A\$32.5 million irrigation asset. This system is

designed to irrigate 740 hectares and to deliver a total output of **555 000** kilolitres per annum.

This should correctly read

The city of Stirling has 355 bores and associated infrastructure that represents a A\$32.5 million irrigation asset. This system is designed to irrigate 740 hectares and to deliver a total output of **5230** kilolitres per annum.

#### WHAT DO YOU THINK?

To discuss this paper, please email up to 500 words to the editor at [journals@ice.org.uk](mailto:journals@ice.org.uk). Your contribution will be forwarded to the author(s) for a reply and, if considered appropriate by the editorial panel, will be published as discussion in a future issue of the journal.

*Proceedings* journals rely entirely on contributions sent in by civil engineering professionals, academics and students. Papers should be 2000–5000 words long (briefing papers should be 1000–2000 words long), with adequate illustrations and references. You can submit your paper online via [www.icevirtuallibrary.com/content/journals](http://www.icevirtuallibrary.com/content/journals), where you will also find detailed author guidelines.
