

Proceedings of the Institution of Civil Engineers 2004: Structures & Buildings, vol. 157

Author index

Abbas A. A., Pavlovic M. N. and Kotsovos M. D.

Permissible-stress design of ground-floor slabs. Dec., 369-384

Aiello M., Leone M. and Ombres L.

Cracking analysis of fibre-reinforced polymer-reinforced concrete tension members. Feb., 53-62

Ayers S. R. and Van Erp G. M.

A code of practice for the structural design of fibre composites. Feb., 3-8

Barr B. and El-Baden A.

Shrinkage properties of normal and high strength fibre reinforced concrete. *Discussion*. Aug., 293

Baskaran K. and Morley C. T.

Application of yield line theory to interior panels of flat slabs. Dec., 395-404

Beeby A. W. *see* Ghallab A. *et al.*

Boh J. W. *see* L. A. Louca *et al.*

Bozzo L. M. and Torres Ll.

A proposed semi-prefabricated prestressed composite slab. Oct., 309-317

Canisius T. D. G. and Waleed N.

Concrete patch repairs under propped and unpropped implementation. Apr., 149-156

Chang S.-P. *see* Ryu H. K. *et al.*

Chen J. F. *see* Yang J. *et al.*

Chen S.

Strength of steel fibre reinforced concrete ground slabs. Apr., 157-163

Choi C.-S. *see* Yun H.-D. *et al.*

Choo Y. S. *see* Louca L. A. *et al.*

Cooper C. *see* Turvey G. J. and Cooper C.

Davies P. *see* Tann D. B. *et al.*

De Lorenzis L., Galati D. and La Tegola A.

Stiffness and ductility of fibre-reinforced polymer-strengthened reinforced concrete members. Feb., 31-51

Delpak R. *see* Tann D. B. *et al.*

Dhir R. K., McCarthy M. J., Zhou S. and Tittle P. A. J.

Role of cement content in specifications for concrete durability: cement type influences. Apr., 113-127

El-Baden A. *see* Barr B. and El-Baden A.

El-Sheimy N. *see* Reda Taha M. M. *et al.*

Ellis B. R. and Littler J. D.

Response of cantilever grandstands to crowd loads. Part I: serviceability evaluation. Aug., 235-241

Response of cantilever grandstands to crowd loads. Part 2: load estimation. Oct., 297-307

Galati D. *see* De Lorenzis L. *et al.*

Garden H. N.

Use of advanced composites in civil engineering infrastructure.

Dec., 357-368

Gergely J. *see* Salom P. R. *et al.*

Ghallab A. and Beeby A. W.

Calculating stress of external prestressing tendons. Aug., 263-278

Ghoneim M. *see* Hamza M. and Ghoneim M.

Halliwell S.

In-service performance of glass-reinforced plastic composites in buildings. Feb., 99-104

Hamza M. and Ghoneim M.

Foundation and structural design of the Bibliotheca Alexandrina. *Discussion*. Dec., 405-407

Hollaway L. C. *see* Hulatt J. A. *et al.*

Hulatt J. A., Hollaway L. C. and Thorne A.

A novel advanced polymer composite/concrete structural element. Feb., 9-17

Ibrahim Z. *see* Reynolds P. *et al.*

Ji T. *see* Mandal P. and Ji T.

Ju Y. K., Yoon S. W. and Kim S. D.

Experimental evaluation of a tuned liquid damper system. Aug., 251-262

Kim S. D. *see* Ju Y. K. *et al.*

Konno T. *see* Sekijima K. *et al.*

Kotsovos M. D. *see* Abbas A. A. *et al.*

Kuhara T. *see* Sekijima K. *et al.*

La Tegola A. *see* De Lorenzis L. *et al.*

Lan Y.

Adaptive structures and architectures for the future. Apr., 129-136

Lee L.-H. *see* Yun H.-D. *et al.*

Lees J. M. and Makarov G.

Mechanical/bonded joints for advanced composite structures. Feb., 91-97

Leone M. *see* Aiello M. *et al.*

Li Q. S. *see* Xiao H. B. *et al.*

Littler J. D. *see* Ellis B. R. and Littler J. D.

Louca L. A., Boh J. W. and Choo Y. S.

Response of profiled barriers subject to hydrocarbon explosions. Oct., 319-331

Luo Q. Z. *see* Xiao H. B. *et al.*

Makarov G. *see* Lees J. M. and Makarov G.

Mandal P. and Ji T.

Modelling dynamic behaviour of a cantilever grandstand. Jun., 173-184

McCarthy M. J. *see* Dhir R. K. *et al.*

Mirambell E. *see* Zárate A. V. and Mirambell E.

Morley C. T. *see* Baskaran K. and Morley C. T.

Newman C. J.

Evaluation of an impact standard for curtain walling. Oct., 333-341

Noureldin A. *see* Reda Taha M. M. *et al.*

Ombres L. *see* Aiello M. *et al.*

Pavic A. *see* Reynolds P. *et al.*

Pavlovic M. N. *see* Abbas A. A. *et al.*

Reda Taha M. M., Noureldin A., El-Sheimy N. and Shrive N. G.

Neural network modelling of creep in masonry. Aug., 279-292

Regan P. E.

Punching of slabs under highly concentrated loads. Apr., 165-171

Reynolds P., Pavic A. and Ibrahim Z.

A remote monitoring system for stadia dynamics. Dec., 385-393

Roy L. *see* Sinha S. and Roy L.

Ryu H. K., Shim C.-S. and Chang S.-P.

Testing a composite box-girder bridge with precast decks. Aug., 243-250

Salom P. R., Gergely J. and Young D. T.

Torsional retrofit of spandrel beams with composite laminates. Feb., 69-76

Seki S. *see* Sekijima K. *et al.*

Sekijima K., Kuhara T., Seki S. and Konno T.

Mechanical splice of grid carbon fibre-reinforced polymer reinforcement and steel plate. Feb., 63-68

Shim C.-S. *see* Ryu H. K. *et al.*

Shrive N. G. *see* Reda Taha M. M. *et al.*

Sinha S. and Roy L.

Fundamental tests of reinforced concrete columns subjected to seismic loading. Jun., 185-199

Tang J. *see* Xiao H. B. *et al.*

Tann D. B., Delpak R. and Davies P.

Ductility and deformability of fibre-reinforced polymer-strengthened reinforced concrete members. Feb., 19-30

Teng J. G. *see* Yang J. *et al.*

Thorne A. *see* Hulatt J. A. *et al.*

Tittle P. A. J. *see* Dhir R. K. *et al.*

Torres Ll. *see* Bozzo L. M. and Torres Ll.

Turvey G. J. and Cooper C.

Review of tests on bolted joints between pultruded GRP profiles. Jun., 211-233

Van Erp G. M. *see* Ayers S. R. and Van Erp G. M.

Waleed N. *see* Canisius T. D. G. and Waleed N.

Xiao H. B., Tang J., Li Q. S. and Luo Q. Z.

Analysis of multi-braced earth retaining structures. *Discussion*. Oct., 355-356

Yang J., Teng J. G. and Chen J. F.

Interfacial stresses in soffit-plated reinforced concrete. Feb., 77-89

Yoon S. W. *see* Ju Y. K. *et al.*

Young D. T. *see* Salom P. R. *et al.*

Yun H.-D., Choi C.-S. and Lee L.-H.

Behaviour of high-strength concrete flexural walls. Apr., 137-148

Earthquake loading of high-strength concrete walls. Jun., 201-209

Zárate A. V. and Mirambell E.

Shear strength of tapered steel plate girders. Oct., 343-354

Zhou S. *see* Dhir R. K. *et al.*
