

Editor's note

[doi: 10.1680/stco.2007.8.3.110]

Luc Taerwe
Editor

As you may have noticed on the first page of the journal, some changes recently occurred to the membership of the Editorial Board.

On the one hand, Andrew Beeby, George Hoff and Peter Schiessl resigned as members after having served on the board since the journal's start. I want to express my sincere thanks

to them for their valuable contributions and stimulating cooperation.

On the other hand, it is my pleasure to welcome the following new members:

Thomas J. D'Arcy, Consulting Engineers Group, San Antonio, USA;

Josée Bastien, Department of Civil Engineering, Université Laval, Québec, Canada;

Tim Ibell, Department of Architecture and Civil Engineering, University of Bath, UK;

S. G. Joglekar, STUP Consultants P. Ltd, Mumbai, India;

Akio Kasuga, Sumitomo Mitsui Construction, Japan;

Yong Yuan, School of Civil Engineering, Tongji University, Shanghai, P.R. China.

With these new members we have extended the geographical network of the board and broadened its professional expertise, while still keeping a good balance between practitioners and academics. In this way we should be able to publish an even wider range of high-quality papers, making the journal even more attractive for our readers.
