

# Proceedings of the Institution of Civil Engineers 2000

## Transport Vol. 141

### Subject index

#### Bitumen & tar

- Evaluation of asphalt fatigue properties in the laboratory. Khalid H.A. Nov., 171–178  
Rutting and volumetric properties of SMA mixtures. Nikolaides A. Aug., 135–141

#### Bridges

- Cost-effective management of scour-prone bridges. Whitbread J.E., Benn J.R. and Hailes J.M. May, 79–86  
The development of UK bridge management systems. Flaig K.D. and Lark R.J. May, 99–106

#### Concrete structures

- Medway Tunnel—construction. Court D.J. Feb., 25–34  
Medway Tunnel—planning and contract administration. Lunniss R.C. Feb., 1–8  
The detailed design of the Medway Tunnel project. Mainwaring G.D., Weeks C.R. and Brandsen C. Feb., 9–24

#### Contracts, law & arbitration

- Medway Tunnel—planning and contract administration. Lunniss R.C. Feb., 1–8

#### Design methods & aids

- The detailed design of the Medway Tunnel project. Mainwaring G.D., Weeks C.R. and Brandsen C. Feb., 9–24

#### Embankments

- Geotechnical engineering for the Medway tunnel and approaches. Leiper Q., Roberts T. and Russell D. Feb., 35–42  
New A557, Widnes—alternative embankment foundations. Osbaldeston S. and Phear A. Aug., 113–122

#### Excavation

- Geotechnical engineering for the Medway tunnel and approaches. Leiper Q., Roberts T. and Russell D. Feb., 35–42

#### Fatigue

- Modelling rail track performance: an integrated approach. Zhang Y.-J., Murray M. and Ferreira L. Nov., 187–194

#### Floods & floodworks

- Cost-effective management of scour-prone bridges. Whitbread J.E., Benn J.R. and Hailes J.M. May, 79–86

#### Geotechnical engineering

- Geotechnical engineering for the Medway tunnel and approaches. Leiper Q., Roberts T. and Russell D. Feb., 35–42

- New A557, Widnes—alternative embankment foundations. Osbaldeston S. and Phear A. Aug., 113–122

#### Grouting

- The North Hollywood Project, Los Angeles. Biggart A.R., Hawley J. and Townsend J. Feb., 43–56

#### Information technology

- Infrastructure and transportation in the twenty-first century—ever-increasing circles? Marsden G., Chatterjee K., Lyons G. and Brackstone M. Nov., 195–206

#### Maintenance & inspection

- Modelling rail track performance: an integrated approach. Zhang Y.-J., Murray M. and Ferreira L. Nov., 187–194  
The development of UK bridge management systems. Flaig K.D. and Lark R.J. May, 99–106

#### Management

- The development of UK bridge management systems. Flaig K.D. and Lark R.J. May, 99–106

#### Materials technology

- Evaluation of asphalt fatigue properties in the laboratory. Khalid H.A. Nov., 171–178  
The use of lime-treated British clays in pavement construction. Part 2: The effect of mellowing on the stabilization process. Holt C.C., Freer-Hewish R.J. and Ghataora G.S. Nov., 207–216  
Rutting and volumetric properties of SMA mixtures. Nikolaides A. Aug., 135–141

#### Mathematical modelling

- Development of a transport model for East Kowloon, Hong Kong. Thompson D., Eaglestone A., Tong C.O. and Wong S.C. May, 87–97

#### Military engineering

- Bosnia and Herzegovina: revitalizing a railway system after war. Brown R.H. Nov., 161–169

#### Pavement design

- New A557, Widnes—alternative embankment foundations. Osbaldeston S. and Phear A. Aug., 113–122  
The use of lime-treated British clays in pavement construction. Part 2: The effect of mellowing on the stabilization process. Holt C.C., Freer-Hewish R.J. and Ghataora G.S. Nov., 207–216

#### Rail track design

- Modelling rail track performance: an integrated approach. Zhang Y.-J., Murray M. and Ferreira L. Nov., 187–194

**Railway systems**

Bosnia and Herzegovina: revitalizing a railway system after war. Brown R.H. Nov., 161–169

**Research & development**

Road marking assessment using digital image analysis. Burrow M.P.N., Evdorides H.T. and Snaith M.S. May, 107–112

The use of active speed warning signs. Kathmann T. and Cannon R. May, 67–77

**Risk & probability analysis**

Cost-effective management of scour-prone bridges. Whitbread J.E., Benn J.R. and Hailes J.M. May, 79–86

**Roads & highways**

Evaluation of asphalt fatigue properties in the laboratory. Khalid H.A. Nov., 171–178

Medway Tunnel—construction. Court D.J. Feb., 25–34

Partnership working: case study of a successful partnering relationship on a major UK DBFO road project. Hodgson G.J. and Rankin R.K. Aug., 143–149

Road marking assessment using digital image analysis. Burrow M.P.N., Evdorides H.T. and Snaith M.S. May, 107–112

Roads, reality and the customer. Madelin K.B. Nov., 179–186

Rutting and volumetric properties of SMA mixtures. Nikolaidis A. Aug., 135–141

The use of active speed warning signs. Kathmann T. and Cannon R. May, 67–77

The use of lime-treated British clays in pavement construction. Part 2: The effect of mellowing on the stabilization process. Holt C.C., Freer-Hewish R.J. and Ghataora G.S. Nov., 207–216

**Rock mechanics**

The North Hollywood Project, Los Angeles. Biggart A.R., Hawley J. and Townsend J. Feb., 43–56

**Social impact**

Roads, reality and the customer. Madelin K.B. Nov., 179–186

**Strength & testing of materials**

The use of permeable materials for backfilling trenches. Alobaidi I.M., Ghataora G.S., Billam J. and Coombs R. Aug., 151–159

**Traffic engineering**

The use of active speed warning signs. Kathmann T. and Cannon R. May, 67–77

**Transport management**

Bosnia and Herzegovina: revitalizing a railway system after war. Brown R.H. Nov., 161–169

Infrastructure and transportation in the twenty-first century—ever-increasing circles? Marsden G., Chatterjee K., Lyons G. and Brackstone M. Nov., 195–206

Partnership working: case study of a successful partnering relationship on a major UK DBFO road project. Hodgson G.J. and Rankin R.K. Aug., 143–149

**Transport planning**

Development of a transport model for East Kowloon, Hong Kong. Thompson D., Eaglestone A., Tong C.O. and Wong S.C. May, 87–97

Infrastructure and transportation in the twenty-first century—ever-increasing circles? Marsden G., Chatterjee K., Lyons G. and Brackstone M. Nov., 195–206

Roads, reality and the customer. Madelin K.B. Nov., 179–186

The basis for Dublin's transportation policy beyond 200. Rogers M. Aug., 123–134

**Tunnels & tunnelling**

Medway Tunnel—construction. Court D.J. Feb., 25–34

Medway Tunnel—planning and contract administration. Lunniss R.C. Feb., 1–8

The detailed design of the Medway Tunnel project. Mainwaring G.D., Weeks C.R. and Brandsen C. Feb., 9–24

The North Hollywood Project, Los Angeles. Biggart A.R., Hawley J. and Townsend J. Feb., 43–56
