Bridges

A high-speed railway through marshlands (CTRL). Dyson S. W. and Kirk M. J. D. May, 75–82

Economics & finance

Influence of price and income on rail travel in Ireland. Ahern. A. and Anandarajah G. Nov., 177–181

Road user charging and taxation. Bayliss D. Nov., 147–152

Embankments

Using waste to reduce slope erosion on road embankments. de Oña J. and Osorio F. Feb., 15–24

Environment

Using waste to reduce slope erosion on road embankments. de Oña J. and Osorio F. Feb., 15–24

Fatigue

An analytical study of road pavement fatigue. Evdorides H. T., Snaith M. S. and Anyala M. May, 93–100

Flooding & floodworks

A high-speed railway through marshlands (CTRL). Dyson S. W. and Kirk M. J. D. May, 75–82

Geotechnical engineering

Investigation of railway track subgrade. Part 2: Case study. Brough M. J., Ghataora G., Stirling A. B., Madelin K. B., Rogers C. D. F. and Chapman D. N. May, 83–92

Health & safety

Accident savings overvalued in road scheme appraisal. Metz D. Nov., 159–163

History

I. K. Brunel: Engineer of the Great Western Railway. Bailey M. R. *Briefing*. May, 57–61

Rail ballast: conclusions from a historical perspective. Claisse P. and Calla C. May, 69–74

Information technology

England's National Traffic Control Centre: improving travel. Stockbridge G. Aug., 103–107

Infrastructure planning

Influence of price and income on rail travel in Ireland. Ahern. A. and Anandarajah G. Nov., 177–181

Nottingham Express Transit Line I: geometrical aspects. Leighton K. and Gillespy M. May, 63–68

Maintenance & inspection

A decision model for junction improvement schemes. Vassou V., Labib A. and Roberts M. Aug., 127–134

Mathematical modelling

An analytical study of road pavement fatigue. Evdorides H. T., Snaith M. S. and Anyala M. May, 93–100

Predicting long-term soaked CBR of gypsiferous subgrade soils. Razouki S. S. and Kuttah D. K. Aug., 135–140

Testing a traffic signal optimisation algorithm. Abdelfatah A. S. Feb., 41–49

Mechanical engineering

I. K. Brunel: Engineer of the Great Western Railway. Bailey M. R. *Briefing*. May, 57–61

Pavement design

Behaviour of coated low-quality aggregates in road pavements. Al Nageim H. and Robinson H. Nov., 165–172

Development of German non-ballasted track forms. Bastin R. Feb., 25–39

Pavement moduli variation under heavy aircraft trafficking.

Gopalakrishnan K. and Thompson M. R. Aug., 117–125

Predicting long-term soaked CBR of gypsiferous subgrade soils. Razouki S. S. and Kuttah D. K. Aug., 135–140

Brough M. J., Ghataora G., Stirling A. B., Madelin K. B., Rogers C. D. F. and Chapman D. N. May, 83–92

Nottingham Express Transit Line I: geometrical aspects.

Leighton K. and Gillespy M. May, 63–68

Rail ballast: conclusions from a historical perspective. Claisse P. and Calla C. May, 69–74

The Madrid–Seville line experience. Guirao B. Aug., 109–116

Railway systems

Development of German non-ballasted track forms. Bastin R. Feb., 25–39

Influence of price and income on rail travel in Ireland. Ahern. A. and Anandarajah G. Nov., 177–181

Prioritising railway projects for investment. Ahern A., Tapley N. and Anandarajah G. Nov., 153–157

Rail ballast: conclusions from a historical perspective. Claisse P. and Calla C. May, 69–74

Research & development

An analysis of road traffic incidents on the M25 motorway, UK. Rodgers S., Wadsworth B., Smith S. D. and Forde M. C. Feb., 1–8

Pavement moduli variation under heavy aircraft trafficking. Gopalakrishnan K. and Thompson M. R. Aug., 117–125
