

Author index

- Adams K. *see* Lin B. *et al.*
Armstrong G. *see* White W. R. *et al.*
- Baker R. C., Moore P. I. and Thomas A.
Electronic verification of flowmeters in the water industry. Dec., 245–251
Bates P. D. *see* Hunter N. M. *et al.*
see also Néelz S. *et al.*
Baylar A. *see* Ozkan F. *et al.*
Berardi L. *see* Savic D. *et al.*
Birkhead A. L. *see* Jordanova A. A. *et al.*
Butera I. and Tanda M. G.
Analysing river bank seepage with a synthetic design hydrograph. Jun., 119–127
- Cassells J. B. C. *see* Karamisheva R. D. *et al.*
Clarke B. *see* Hau Y. *et al.*
Cunningham R. *see* Hau Y. *et al.*
- Djordjevic S. *see* Savic D. *et al.*
Dun R. W.
Reducing uncertainty in the hydraulic analysis of canals. Dec., 211–224
- Evans E., Hall J., Penning-Rowsell E., Sayers P., Thorne C. and Watkinson A.
Future flood risk management in the UK. Mar., 53–61
- Falconer R. A.
Editorial. Mar., 1
Editorial. Dec., 209
see also Lin B. *et al.*
Fleming C. A. *see* Li B. *et al.*
- Gaulke L. S.
On-site wastewater treatment and reuses in Japan. Jun., 103–109
Ghodsian M., Melville B. and Tajkarimi D.
Local scour due to free overfall jet. Dec., 253–260
Giustolisi O. *see* Savic D. *et al.*
Gorantiwar S. D. *see* Smout I. K. and Gorantiwar S. D.
- Hall J. *see* Evans E. *et al.*
Hammond M. and Han D.
Issues of using digital maps for catchment delineation. Mar., 45–51
Han D. *see* Hammond M. and Han D.
Hau Y., Clarke B., Howes C., Cunningham R. and Matthews M.
Defects in sewer pipe joints and water tests. *Erratum*. Mar., 78
Hontoria E. *see* Osorio F. and Hontoria E.
Horritt M. S. *see* Hunter N. M. *et al.*
Howes C. *see* Hau Y. *et al.*
Hunter N. M., Bates P. D., Horritt M. S. and Wilson M. D.
Improved simulation of flood flows using storage cell models. Mar., 9–18
- Iredale R. *see* White W. R. *et al.*
- Jaman S. T. *see* Tarekul Islam G. M. and Jaman S. T.
James C. S. *see* Jordanova A. A. *et al.*
James C. S. and Makoa M. J.
Conveyance estimation for channels with emergent vegetation for boundaries. Dec., 235–243
Jordanova A. A., James C. S. and Birkhead A. L.
Practical estimation of flow resistance through emergent vegetation. Sept., 173–181
- Kadimba-Mwanamwambwa C. *see* Kayaga S. and Kadimba-Mwanamwambwa C.
Karamisheva R. D., Lyness J. F., Myers W. R. C., Cassells J. B. C. and O'Sullivan J.
Sediment transport formulae for compound channel flows. Sept., 183–193
Overbank flow depth prediction in alluvial compound channels. Sept., 195–205
Kayaga S. and Kadimba-Mwanamwambwa C.
Bridging Zambia's water service gap: NGO/community partnerships. Sept., 155–160
- Lee H., McIntyre N. R., Wheeler H. S. and Young A. R.
Predicting runoff in ungauged UK catchments. Jun., 129–138
Lee J.-T. *see* Rim C.-S. *et al.*
Li B., Phillips M. and Fleming C. A.
Application of 3D hydrodynamic model to flood risk assessment. Mar., 63–75
Lin B., Wicks J. M., Falconer R. A. and Adams K.
Integrating 1D and 2D hydrodynamic models for flood simulation. Mar., 19–25
Lyness J. F. *see* Karamisheva R. D. *et al.*
- Makoa M. J. *see* James C. S. and Makoa M. J.
Mason D. *see* Néelz S. *et al.*
Matthews M. *see* Hau Y. *et al.*
McIntyre N. R. *see* Lee H. *et al.*
Melville B. *see* Ghodsian M. *et al.*
Moore P. I. *see* Baker R. C. *et al.*
Myers W. R. C. *see* Karamisheva R. D. *et al.*
- Néelz S., Pender G., Villanueva I., Wilson M., Wright N. G., Bates P., Mason D. and Whitlow C.
Using remotely sensed data to support flood modelling. Mar., 35–43
- Osorio F. and Hontoria E.
Wastewater nitrification using ceramic industry waste. Sept., 161–164
O'Sullivan J. *see* Karamisheva R. D. *et al.*
Ozkan F., Baylar A. and Ozturk M.
Air entrainment and oxygen transfer in high-head gated conduits. Jun., 139–143

Ozturk M. *see* Ozkan F. *et al.*

Pender G.

Introducing the Flood Risk Management Research Consortium.

Briefing. Mar., 3–8

see also Néelz S. *et al.*

Penning-Rowsell E. *see* Evans E. *et al.*

Peters E. J.

Rainwater potential for domestic water supply in Grenada. Sept., 147–153

Phillips M. *see* Li B. *et al.*

Rim C.-S., Lee J.-T., Yoon S.-E. and Shin J.-K.

Prediction of pollutant movement in a regulated large river. Dec., 225–233

Saul A. *see* Savic D. *et al.*

Savic D., Giustolisi O., Berardi L., Shepherd W., Djordjevic S. and Saul A.

Modelling sewer failure by evolutionary computing. Jun., 111–117

Sayers P. *see* Evans E. *et al.*

Shepherd W. *see* Savic D. *et al.*

Shin J.-K. *see* Rim C.-S. *et al.*

Smout I. K. and Gorantiwar S. D.

Improving allocation of irrigation water in southwest India. Jun., 95–101

Tajkarimi D. *see* Ghodsian M. *et al.*

Tanda M. G. *see* Butera I. and Tanda M. G.

Tarekul Islam G. M. and Jaman S. T.

Modelling sediment loads in the Lower Ganges, Bangladesh. Jun., 87–94

Thomas A. *see* Baker R. C. *et al.*

Thorne C. *see* Evans E. *et al.*

Villanueva I. *see* Néelz S. *et al.*

Villanueva I. and Wright N. G.

Linking Riemann and storage cell models for flood prediction. Mar., 27–33

Watkinson A. *see* Evans E. *et al.*

Wheater H. S. *see* Lee H. *et al.*

White W. R., Iredale R. and Armstrong G.

Fishpasses at flow measurement structures. Sept., 164–171

Whitlow C. *see* Néelz S. *et al.*

Wicks J. M. *see* Lin B. *et al.*

Wilson M. D. *see* Hunter N. M. *et al.*

see also Néelz S. *et al.*

Wright N. G. *see* Villanueva I. and Wright N. G.

see also Néelz S. *et al.*

Yoon S.-E. *see* Rim C.-S. *et al.*

Young A. R. *see* Lee H. *et al.*
