

Erratum

Further to the publication of Proceedings of the Institution of Civil Engineers, Water Management, 2009, 162, No. 5, the following amendments should be noted to Soakage testing: modelling the effect of antecedent hydrology by James R. Blake, pp. 337–346. The article has been corrected on the ICE Virtual Library website (www.icevirtuallibrary.com).

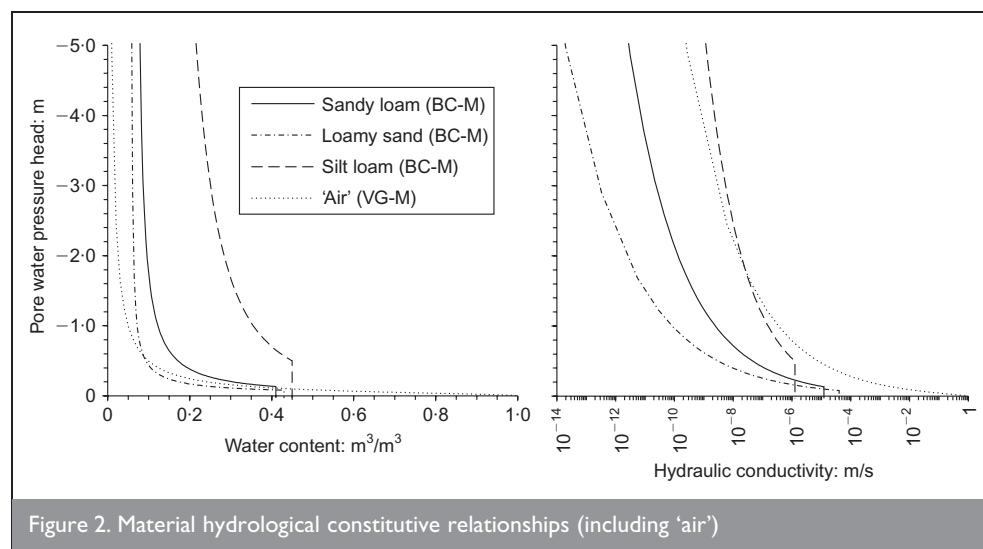

The author was incorrectly listed as MSc; this should have been MSci.

A bracket was incorrectly removed from Equation 2.

2	$\frac{\partial \theta}{\partial t} = \nabla(\underline{K} \nabla(h + z)) + S$
---	--

Page 339 of the article referred on several times to the *y*-axis and *y*-direction; this should have read *z*-axis and *z*-direction, respectively.

The left-hand graph in Figure 2 did not plot for air.

Page 340, column 2, line 17 should read The lower right-hand instead of The right-hand.

Page 345, column 1, line 10 and column 2, line 15 should both read would not be accounted for instead of might not be accounted for.
