
Expression of concern: Transitioning drivers from linear to circular economic models: evidence of entrepreneurship in emerging nations

Management
Decision

1197

The publisher of *Management Decision* is issuing an Expression of Concern for the following article: Beheshti, M., Amoozad Mahdiraji, H. and Rocha-Lona, L. (2023), "Transitioning drivers from linear to circular economic models: evidence of entrepreneurship in emerging nations", *Management Decision*, Vol. 62 No. 9 pp. 2714-2736, doi: <https://doi.org/10.1108/MD-02-2023-0279>, which was submitted to the guest-edited special issue "Navigating the role of circular economy in entrepreneurship: Opportunities and challenges". An investigation by the publisher found a number of articles with multiple concerns, including but not limited to compromised editorial handling and reviewing, undisclosed conflicts of interest and lack of suitability for the scope of the journal. As a result of these concerns and as trust in the content is central to the integrity of the publication process, the editor-in-chief and publisher have taken the decision to publish an expression of concern for all articles within this special issue. The journal has not been able to confirm whether the authors were aware of these concerns. The authors of this article would like to note that they do not agree with the content of this notice. An investigation is ongoing and is currently unresolved. Further information will be provided by *Management Decision* as it becomes available. The publisher of the journal sincerely apologizes to the readers and authors of this article, who were not found to be involved in any malpractice.
