

Addendum: An analysis of stakeholders' aspiration needs for grand challenges

1158

It has come to the attention of the publisher that the article Albert-Cromarias, A. and Pinglot, A. (2025), “An analysis of stakeholders' aspiration needs for grand challenges”. *Management Research Review*, Vol. 48 No. 3, pp. 439-454, doi: <https://doi.org/10.1108/MRR-08-2023-0611> did not suitably reference an earlier work by the same authors: Albert-Cromarias, A. and Pinglot, A. (2024). Alignement des parties prenantes dans un projet territorial de tourisme durable: une lecture par les proximités. *Revue française de gestion*, 319(6), 65–88. The empirical data presented in the present article were previously analysed from a proximity perspective in the previous article. Figure 2 is also reproduced in the present article from the previous article. The authors would like to note that two articles are clearly distinct in their objectives and contributions.
