

CONFERENCE CALENDAR

Below are some of the conferences on instructional technology, and online and blended learning that may be of interest to readers of the *Quarterly Review of Distance Education*.

ICBL 2023: International Conference on Blended Learning, March 6–7, 2023, Rome, Italy (Digital)

“International Conference on Blended Learning aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of blended learning. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of blended learning.”

CoSN2023 Conference, March 20–23, 2023, in Austin, Texas

“The Consortium for School Network (CoSN) is the premier professional association for school system technology leaders. CoSN provides thought leadership resources, community, best practices and advocacy tools to help edtech leaders succeed in the digital transformation. Our learners and leaders have experienced a disruption over the last 3 years that continues to challenge our traditional educational system. As we are emerging into a new

era of learning, wherein many schools have significantly increased their digital footprint, we as educational leaders need to reimagine what schooling could be. We should redesign education to ensure equitable learning for all children. And we should renew our commitment to advancing digital learning. Let these three ‘Rs’ serve as our collective call to action.”
